Re: FCC Proceeding 17-108, "Restoring Internet Freedom"

As a citizen, taxpayer, parent, teacher, consumer and Internet user, I ask that you please do not end Net Neutrality. Do not allow blocking, throttling and discrimination. Do not leave the citizens of the United States at the mercy of the phone and cable companies.

Furthermore, naming this proceeding "Restoring Internet Freedom" is an insult to the citizens of this country, as it privileges the "freedom" of phone and cable companies to make unlimited profits at the peril of the free flow of information in our country.

Sincerely,
Heidi Whitus
