

Dear FCC Chairman Ajit Pai,

As a proud American who has directly benefited from the open-access environment provided by the the existing Net Neutrality rules, I firmly oppose the announced plans to alter the current regulations. The welfare of myself, my fellow Americans, as well as future generations, is in direct jeopardy with the aforementioned proposed plans. I emphatically request that the FCC pays respect to the American people by protecting the freedom of access to information on our cherished information exchange platform. Please, DO NOT roll back these regulations. Thank you for your consideration.

Elizabeth M. Gitelman, M.S.
