

**November 27, 2017**

**Do not surrender “net neutrality” to private business and internet service providers.**

**A “free” internet generates more business opportunities and economic growth than a toll-based system.**

**Amazon, Netflix, Twitter, and the wide dispersion of news and data all have a common root: “net neutrality”.**

**Any proposal or half-measure to abandon “net neutral” will erode both democracy and economic growth.**
