To Whom it May Concern:

I adamantly support protecting the independent channels such as RFD TV, BHTV, and other channels that are in danger of elimination. These popular channels are an integral part of life in rural America. They greatly enhance the lives of senior citizens while promoting agriculture, a necessity for all citizens. Large companies should never underestimate the importance of agriculture to the populace. We will not continue to support companies that never consider our choices and our needs. PLEASE RECONSIDER! you have nothing to lose! We love RFD TV.

To FCC

I support RFD TV - it should be kept on all cable stations its our heritage. I was raised on a farm, it was the happiest time of my life. I have a special place in my heart for farmers (my Dad was one) everytime I eat a vegetable or fruit - I know where they come from. We are making a big mistake in America when we do not love & respect them & do everything to support them. Enjoy watching Rural television, the programs bring back happy memories of dirt & green grass, I'm 74 years old & wish I was back on a farm!

Dear F.C.C. - 16-41

I am writing because I am very concerned about the big Urban based companies trying to do away with the smaller Rural Independent programming.

I watch RFD-TV all the time. It is my favorite channel. please don't allow them to take it away. I love just about anything that has to do with the Country Life. I was raised on a Farm. I am almost 80 yrs old, don't get out much. Watching Television is about all the enjoyment I have. It would be terrible to take RFD-TV off the air and deny me (and plenty others, like me) the only enjoyment we have in our latter days. It's not Right, and shouldn't be done.

I Thank you for listening to me, and I hope you can do something to help us.

I Love music.

To Whomever It May Concern:

My husband and I enjoy watching RFD on Saturday evenings, especially. The shows are wholesome and many contain enjoyable music. It appeals to our senior lifestyle. There are so many programs on TV that aren't worth watching, or which contain material that demeans families' values today. WE would like to see RFD continue. WE watch RFD on channel 568 which is supplied by AT&T U-Verse in Maryville, Tennessee.

Thank you for your consideration of this programming.

Removing RFD on Saturday's is like taking away memories of the elderly. I'm 82.

I can hear a certain song, and visualize my Mother in the Kitchen singing along, with the radio playing Country music. (She passed 33 years ago.)

The supposedly Country music we hear today has no meaning and therefore reminds me of a Turkey ranch I lived on, as a very young girl, especially when an uninvited visitor (a snake) would enter their territory. In other words Country music today sucks, and is far from what people in my generation are missing.

The soothing worth listening too music is gone. That's sad, this is what R.F.D I.V. gives us, and this is what we deserve →
