NASA/SPACE ADAPTATION

The majority of astronauts who go into space are ill for the first few days of a mission due to microgravity's effect on the inner ear, not unlike sea sickness. With time, all astronauts adapt, but the process that causes this re-adjustment is not well understood. Researchers have been doing pre and post-flight studies of the astronauts and have devised a training simulator that may someday help them adapt to microgravity before actually flying.

BAKING SODA

Normal Arm & Hammer baking soda can be used for a lot more than keeping the refrigerator clean smelling. Civil engineers have found that by adding it to the water system, it will seal the pipes, preventing lead poisons from leaking into the water supply.
