Re: *Requests for Waiver of the Hearing Aid Compatibility Volume Control Reset Rules*, Docket No. 18-307

Dear Ms. Dortch:

Ultratec clarifies that its waiver request of November 16 is intended to be interpreted as a request to waive both section 68.317(g) and section 68.317(h).¹ In furtherance of that clarification, Ultratec notes that the devices listed in its request support both public switched telephone network (PSTN) and Voice over Internet Protocol (VoIP) services.

Respectfully submitted,

By: /s/ Kevin Colwell
