Dear Chairman Pai,

I write to support the Comments of the Cable Act Preservation Alliance ("CAPA") and to disapprove of the proposals and tentative conclusions set forth in the FCC's September 25 Further Notice of Proposed Rule Making in Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992, MB Docket 05- 311.

For myself personally and for our community local cable television has been an incredibly important resource. Whether it is the cablecast of a local church service, a school concert or a political meeting, our local station (Chelmsford TeleMedia) is where the community turns to electronically to stay in touch with with our "public" relationship.

Chelmsford TeleMedia provides education, training, opportunity and the equipment to support a vital local voice of communication and creation. If local Multinational cable carriers can use our streets, our space and property to deliver their product and make their profits I don't it's out of line to ask something back in return.

Please we need your support.

Thank you,

Matthew Scott
