Dear Sir/Madam

I am writing about a certified date on my 2017 form 471 number 171046695. It says it was certified on May 19, 2017, but I sent all 5 in together on May 11, 2017. My other 4 showed up as Certified on May 11th, but this one for some reason is showing as May 19 and therefor as certified "out of window". This was to install a fiber across a road to get internet into the students Art building.

Can you help? Is there anything to do to correct this? Anything that can be done will be of great help and greatly appreciated. Please feel free to contact me at the information above.

Most Sincerely,

Kathleen Power
