

DO NOT reverse net neutrality. We are a Democracy, not an Oligarchy! Listen to the citizens and do not restrict our First Amendment rights by allowing corporations to charge us more for access to speech! I will donate to legal challenges should Ajit Pai succeed in repealing net neutrality rules. Do not waste our time, nor tax dollars, in lengthy court challenges. Keep Net Neutrality!

Also, I filed a comment on this site for this same issue back in May, but it does not appear when I do a search. Why does it seem like my comment is missing? Please do an investigation into the supposed "DDoS attack" the FCC claimed occurred. I fear my ability to have my speech counted by my government has been compromised.
