Ajit Pai, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

RE: NET NEUTRALITY

Mr. Pai:

The Internet should remain free and open, and large corporations like Verizon and Comcast should have zero control over what sites consumers visit and what news consumers get to read. I would like to make it clear that I am **FOR** Net Neutrality and very much **AGAINST** the repeal of Net Neutrality rules (what this repeal action would do if passed).

Sincerely,

Michael Segal
Managing Director
