CONCORD PUBLIC SCHOOLS
CONCORD-CARLISLE REGIONAL SCHOOL DISTRICT

120 MERIAM ROAD, CONCORD, MASSACHUSETTS 01742
Telephone: (617) 369-9500

October 28, 1985

TO WHOM IT MAY CONCERN:

At the September 10th, 1985 meeting, the Concord-Carlisle Regional School Committee discussed the matter of the FCC application for Concord-Carlisle High School's Radio Station, WIQH. At that time the Committee made the following motion:

--That the Concord-Carlisle School Committee agree to act as a source of last resort for funds needed for FCC approval of a license of Radio Station WIQH not to exceed $6,000.

Voted Unanimously

Also during that discussion the Concord-Carlisle Regional School Committee authorized Edwin G. Roos, Advisor to Radio Station WIQH, to act on behalf of the Concord-Carlisle Regional School Committee in all matters relating to the completion of the FCC application. The School Committee understands that Mr. Roos, as Advisor, is authorized to operate the Station, to file whatever applications may be necessary in the course of operating the Station, and further understands that Mr. Roos is filing the present application with the FCC in order to increase the power of Radio Station WIQH on the Committee's behalf.

Should you require any further information concerning this application, please feel free to call me at 617 369-9500, ext. 221.

Sincerely yours,

Irwin Blumer, Ed.D.
Superintendent of Schools

Statement of Financial Status

Regarding funding for WIQH's proposed modification of facilities, the Concord-Carlisle Regional School Committee voted, as attested to in Exhibit 1, to appropriate funding--up to $6,000--to cover the cost of the modification. The Committee funding serves as fallback funding in the event that the station is unable to raise the required funding through solicitation of private contributions. With the Committee's contingent appropriation, funding for the project is guaranteed, even if fundraising efforts fall short of the $6,000 estimated cost of the modification.

Regarding the station's operating budget for the first year of operation, the station expects to defray these costs through donations as it has done in the past. Note that the utility costs incurred by WIQH are paid for by the School District and that space for the station's studios is provided by the school. The station has no specific budget, with funding designated for certain departments or projects. Rather, projects are undertaken as funding becomes available.

Proposed Program Schedule

WIQH's programming consists primarily of Light Entertainment, namely, high school students acting as live announcers and playing recorded popular music. The station also broadcasts at least two minutes of Public Service Announcements each hour.

During the school year, WIQH broadcasts the Concord-Carlisle High School home varsity football and basketball games. The station plans to expand coverage of these sports to include away games as well as home games. The number of home sporting events broadcast this year is expected to be approximately 15 contests. The station is also currently airing a brief (5 minute) update of scores of all High School sports contests each week.

WIQH has just begun a weekly local news program airing once a week and lasting approximately ten minutes. The program

Description of Facilities, Staff and Equipment

WIQH is staffed by nearly one hundred persons, all students of the Concord-Carlisle High School. The student staff is overseen and directed by two Faculty Advisors who teach broadcasting theory and broadcast station operation. The Faculty Advisors also guide the students in project implementation.

The stations facilities include a Master Control studio and a co-located sound studio. The Master Control studio contains a five channel mixing console, two turntables, two cartridge tape recorder/players, two reel-to-reel tape recorders, a cassette recorder/player and a microphone. The Master Control Studio also houses the station's transmitter and Emergency Broadcast System Monitor.

The adjacent Sound Studio will shortly be wired to support the use of four microphones simultaneously. This studio will be used for news broadcasts as well as for production of pre-recorded special programming.

WIQH owns two Shure brand portable microphone mixers for use in remote broadcasting. The station also own several additional microphones for use in field recording and/or live broadcasting. Equipment for connecting the remote mixers to telephone lines, allowing transmission of programs from the field to the station, is also available to the station.
