

SECTION VI - EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

1. For Low Power TV applicants, will this station employ on a full-time basis five or more persons?

Yes No

If Yes, the applicant must include an EEO program called for in the separate Broadcast Equal Employment Opportunity Report (FCC Form 396-A).

SECTION VII - CERTIFICATIONS

1. For new station and major change applicants only, the applicant certifies that it has or will comply with the public notice requirement of 47 C.F.R. Section 73.3580(g).

Yes No

2. For applicants proposing translator, rebroadcasts who are not the licensee of the primary station, the applicant certifies that written authority has been obtained from the licensee of the station whose programs are to be retransmitted.

Yes No

N.A.

Primary station proposed to be rebroadcast:

Call Sign	City	State	Channel No.

3. The applicant certifies that it has contacted an authorized spokesperson for the owner of the rights to the proposed transmitter site and has obtained reasonable assurance that the site will be available for its use if this application is granted.

Yes No

That person can be contacted at the following address and telephone number:

Name Barry L. March		Mailing Address or Identification General Manager, Quality Inn	
City Lebanon	State PA	ZIP Code 17042	Telephone No. (include area code) (717) 273-6771

The APPLICANT hereby waives any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations, and that all exhibits are a material part hereof and incorporated herein.

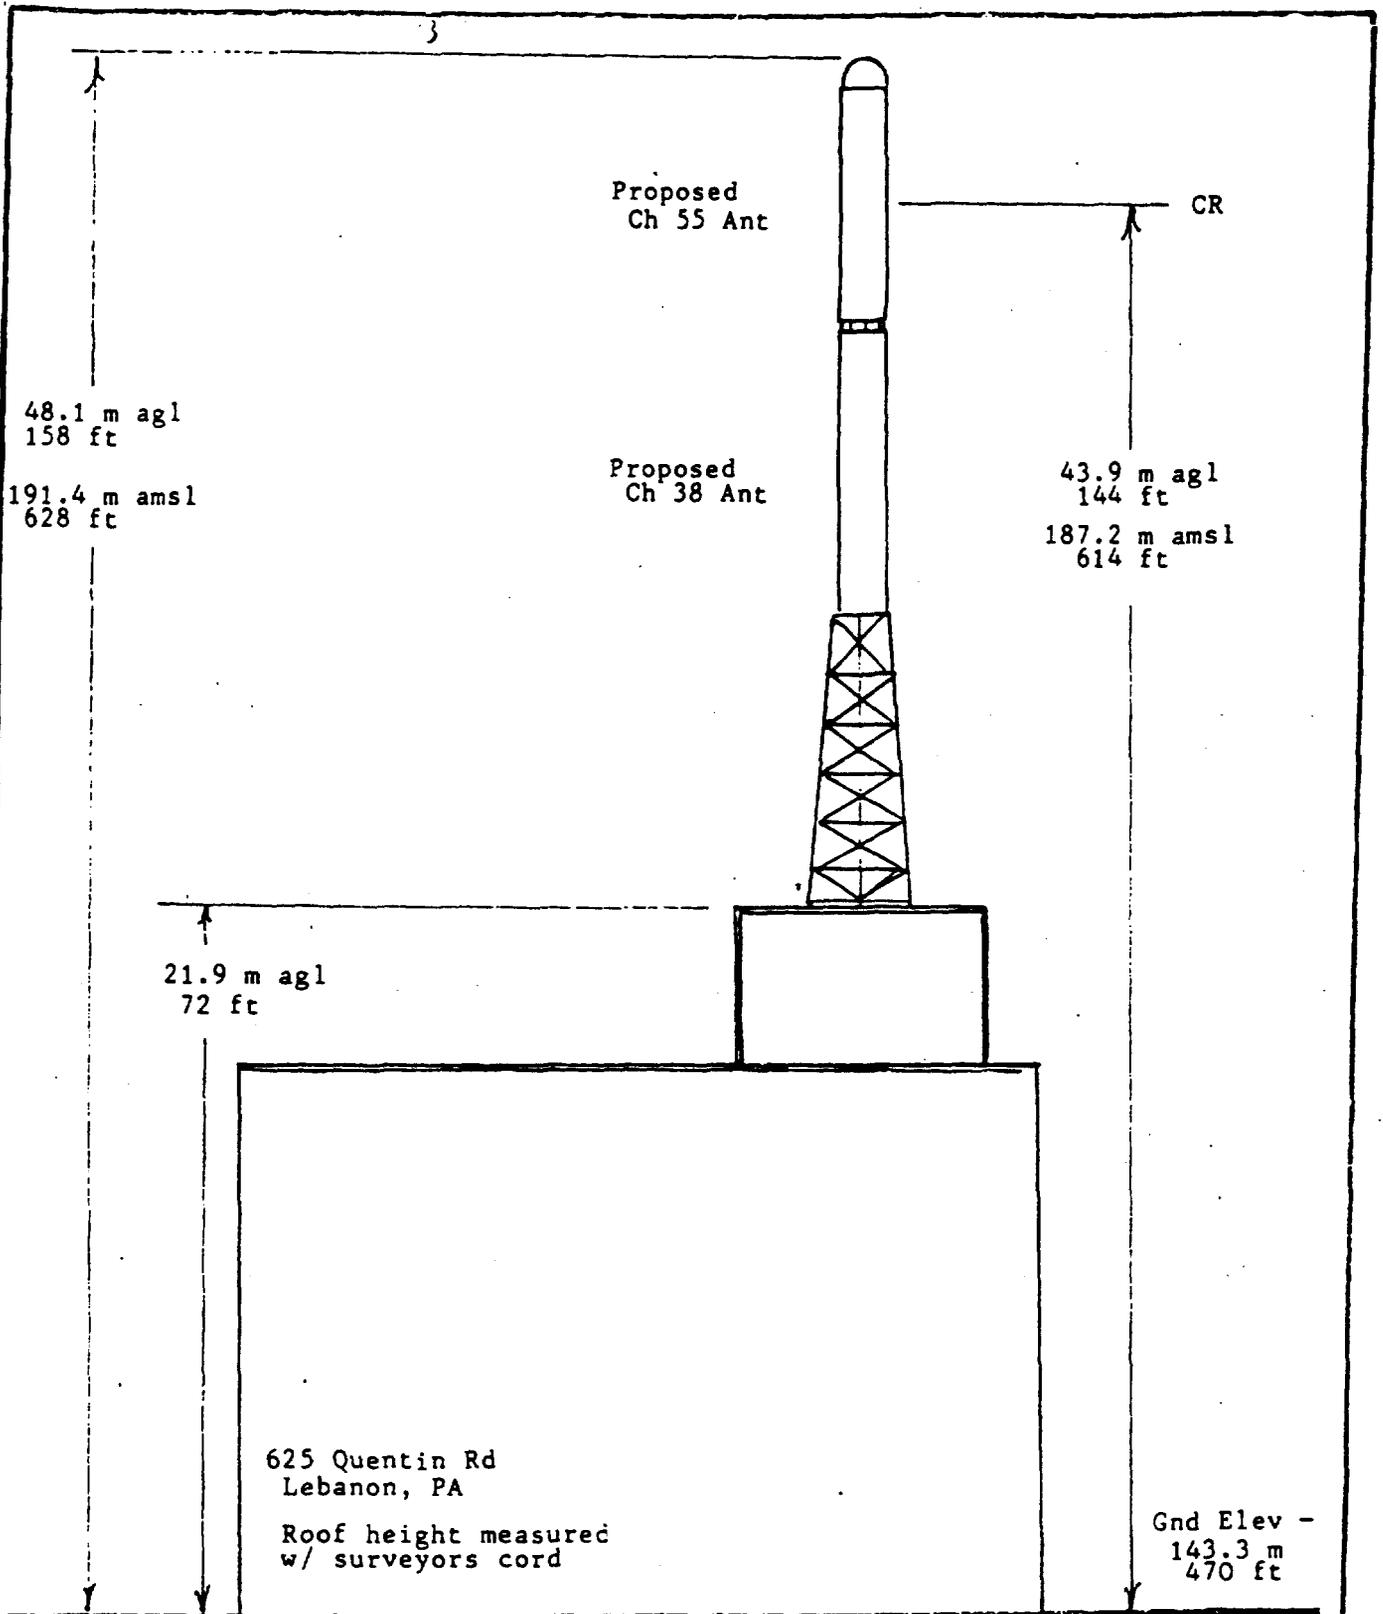

The APPLICANT represents that this application is not filed for the purpose of impeding, obstructing, or delaying determination on any other application with which it may be in conflict.

In accordance with 47 C.F.R. Section 1.65, the APPLICANT has a continuing obligation to advise the Commission, through amendments, or any substantial and significant changes in information furnished.

**WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND IMPRISONMENT.
U.S. CODE, TITLE 18, SECTION 1001.**

I certify that the statements in this application are true, complete and correct to the best of my knowledge and belief, and are made in good faith.

grant date specified above

Permit File No.: BPTTL-890309PA

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

This permit shall be automatically forfeited if the station is not ready for operation within the time specified (date of expiration) or within such further time as the Commission may allow, unless completion of the station is prevented by causes not under the control of the permittee. See Sections 73.3598, 73.3599 and 73.3534 of the Commission's Rules.

Equipment and program tests shall be conducted only pursuant to Sections 74.13 and 74.14 of the Commission's Rules.

Name of permittee:

RAYSTAY COMPANY

Station Location:

PA-LANCASTER

Frequency (MHz): 524.0 - 530.0 Offset: Zero

Channel: 23

Hours of Operation: Unlimited

Call sign: W23AW

Permit No.: BPTTL-890309PA

Transmitter location (address or description):

ERICK ROAD, LANCASTER, PA

Transmitter: Type accepted. See Section 74.750 of the Commission's Rules.

Antenna type: (directional or non-directional): Directional

Desc: BOGNER B16UA

Major lobe directions (degrees true): 286.0

Antenna coordinates: North Latitude: 40 03 47.0
West Longitude: 76 19 9.0

Transmitter output power (Visual) : 1.000 kW

Maximum effective radiated power (Visual) : 7.12 kW

Height of radiation center above ground : 42.0 Meters

Height of radiation center above mean sea level : 145.0 Meters

Overall height of antenna structure above ground (including obstruction
lighting, if any) : 57.0 meters

Obstruction marking and lighting specifications for antenna
structure:

It is to be expressly understood that the issuance of these specifications
is in no way to be considered as precluding additional or modified marking
or lighting as may hereafter be required under the provisions of Section
303(q) of the Communications Act of 1934, as amended.

None Required

Special operating conditions or restrictions:

1. Prior to construction of the tower authorized herein, permittee shall notify AM Station(s) listed below so that the station(s) may commence determining operating power by the indirect method. Permittee shall be responsible for the installation and continued maintenance of detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the AM station(s). Both prior to construction of the tower and subsequent to the installation of all appurtenance thereon, antenna impedance measurements of the AM station(s) shall be made and sufficient field strength measurements, taken at 10 locations along each of eight equally spaced radials, shall be made to establish that the AM radiation pattern is essentially omnidirectional. Prior to or simultaneous with the filing of application for license to cover this permit, the results of the field strength measurements and the impedance measurements shall be submitted to the Commission in an application for the AM station(s) to return to the direct method of power determination.
(Revised March 14, 1983)

WLPA 1490 KHZ, LANCASTER, PA

2. Prior to construction of the tower authorized herein, permittee shall notify AM Station(s) listed below so that, if necessary, the AM station(s) may determine operating power by the indirect method and request temporary authority from the Commission in Washington, D.C. to operate with parameters at variance in order to maintain monitoring point field strengths within authorized limits. Permittee shall be responsible for the installation and continued maintenance of detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the AM station(s). Both prior to construction of the tower and subsequent to the installation of all appurtenances thereon, a partial proof of performance, as defined by Section 73.154(a) of the Commission's Rules, shall be conducted to establish that the AM array has not been adversely affected and, prior to or simultaneous with the filing of the application for license to cover this permit, the results submitted to the Commission.

Dear Ms. Searcy:

On behalf of Raystay Co., permittee of low power television station W23AW at Lancaster, Pennsylvania, we are submitting an original and one copy of an application for additional time to construct that station.

Pursuant to the Commission's July 11, 1991 Public Notice (FCC Fees, 69 RR 2d 787, 788), no filing fee is required for this application.

Should there be any questions regarding this matter, kindly communicate directly with this office.

Respectfully submitted,

John J. Schauble

APPLICATION FOR EXTENSION OF BROADCAST CONSTRUCTION
PERMIT OR TO REPLACE EXPIRED CONSTRUCTION PERMIT
(CAREFULLY READ INSTRUCTIONS ON BACK BEFORE COMPLETING)

For Commission Use Only

File No. **BMPITL-911220IX**

1. Legal Name of Applicant (See Instruction C)

Raystay Company

3. PURPOSE OF APPLICATION:

- a. Additional time to construct broadcast station
 b. Construction permit to replace expired permit

2. Mailing Address (Number, street, city, state, ZIP code)

4. IDENTIFICATION OF OUTSTANDING CONSTRUCTION PERMIT:

EXHIBIT 1

The permittee respectfully submits that a grant of the instant application would be in the public interest for the following reasons:

Initially, it must be noted that Raystay Co. has built and is currently the licensee of LPTV station W40AF licensed to Dillsburg, PA. Raystay built the station pursuant to a construction permit issued to it by the Commission.

At the present time, equipment for the station has not been ordered or delivered. Raystay, however, has had discussions with equipment suppliers concerning the types and prices of equipment that could be used at the site specified in the construction permit. It has entered into lease negotiations with representatives of the owners of the antenna site specified in the applications, although those negotiations have not been consummated. A representative of Raystay and an engineer have visited the antenna site and ascertained what site preparation work and modifications need to be done at the site.

Raystay has undertaken research in an effort to determine the programming that would be offered on the station. It has had discussions with program suppliers to determine what programs could be available for broadcast on the station. It has also had continuing negotiations with local cable television franchises to

ascertain what type of programming would enable the station to be carried on local cable systems.

The denial of this extension request could eliminate any possibility of the proposed LPTV service being offered to the community. No application mutually exclusive with Raystay's construction permit application was filed, so no other entity has expressed an interest in providing this service.

Accordingly, Raystay requests that the Commission extend the date for construction for a period of six months from the date this application is granted or from the date the current construction permit expires, whichever is later.
