FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Mr. R.L. Samuels  
Bear Valley Springs R/C  
Modelers  
23420 Mashie Court  
Tehachapi, California 93561

Dear Mr. Samuels:

This is in reply to your letter to President Clinton regarding the Notice of Proposed Rule Making (Notice) in PR Docket No. 92-235, 57 FR 54034 (1992). This Notice proposes comprehensive changes to the Commission's Rules governing the private land mobile radio services operating in the frequency bands below 512 MHz.

You are specifically concerned about the impact of these changes on radio control (R/C) hobby users. Enclosed is a discussion paper concerning our proposals for the 72-76 MHz band. In short, we expect there would be no adverse impact on R/C operations because of any proposal contained in the Notice.

We are, of course, sensitive to the concerns of both users of private land mobile radio spectrum and R/C hobbyists. We will, therefore, take your concerns into account when we develop final rules in this proceeding. As indicated in the Notice, we remain convinced that without significant regulatory change in radio operations in the bands below 512 MHz, the quality of communications in the private land mobile radio services will continue to deteriorate to the point of endangering public safety and the national economy.

We want to thank you for your interest. Your letter will be included in the record of the proceeding. We expect final rules to be issued in 1994.

Sincerely,

JS/

Joseph A. Levin  
Chief, Policy & Planning Branch  
Private Radio Division

Dear Mr. Samuels:

Thank you so much for your letter. President Clinton greatly appreciates the trust and confidence you have expressed in him by writing.

To give your concerns the special attention they deserve, the President has asked me to forward your letter to the Federal Communications Commission. I have asked them to provide you with a prompt reply, but please bear in mind that it may take several weeks to look thoroughly into the concerns you have raised. Should you have any questions after reviewing their response to you, you may write: Federal Communications Commission, 1919 M Street, N.W., Washington, D.C. 20554.

Many thanks for your patience.

Sincerely,

Marsha Scott  
Deputy Assistant to the President  
and Director of Presidential  
Correspondence

Ref: FCC's Notice of Proposed Rule Making (NPRM-PR Docket 92-235)

Dear Mr. President

HS

I have been informed by the Academy of Model Aeronautics (AMA)

hours. To have this much work destroyed because AT&T has provided John Doe with a "Cellular" phone to call his wife or order a Pizza just as this model is 300ft over the model flying field is courting serious disaster, injury or death and probably much work for the attorneys and insurance companies.

In short, I sincerely request that you apply whatever pressure is at your disposal to have the FCC rescind the plans to insert new and inappropriate frequencies in the 72MHz and 75MHz bands that will profoundly curtail model operation throughout the country. I seriously believe that the FCC must reconsider NPRM-PR Docket 92-235 very carefully for it's profound effect on Part 95 where our model remote control frequencies reside.

This matter is particularly urgent since the FCC cutoff for comments on this subject is February 26th 1993 and they have yet to take the trouble to formally notify this seriously jeopardized nationwide group of users of a very serious conflict of interests and invite their comments. The FCC does not appear to have done its homework very thoroughly for this proposal. The last time the FCC acted in this precipitous and cavalier manner we had the "Citizen Band" explosion which totally destroyed the orderly use of the 27MHz band. I believe it is time the FCC reviewed useage of the 27MHz band for Land Mobile Communication and give a
