Docket - 222

FEDERAL COMMUNICATIONS COMMISSION
WASHINGTON, D.C. 20554

18 MAY 1993

IN REPLY REFER TO:

7330-7/1700A3

RECEIVED

MAY 19 1993

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Mr. E. Smith
321 Trail
San Antonio, Texas 78212

Dear Mr. Smith:

This is in reply to your letter to President Clinton regarding the Notice of Proposed Rule Making (Notice) in PR Docket No. 92-235, 57 FR 54034 (1992). This Notice proposes comprehensive changes to the Commission's Rules governing the private land mobile radio services operating in the frequency bands below 512 MHz.

You are specifically concerned about the impact of these changes on radio control (R/C) hobby users. Enclosed is a discussion paper concerning our proposals for the 72-76 MHz band. In short, we expect there would be no adverse impact on R/C operations because of any proposal contained in the Notice.

We are, of course, sensitive to the concerns of both users of private land mobile radio spectrum and R/C hobbyists. We will, therefore, take your concerns into account when we develop final rules in this proceeding. As indicated in the Notice, we remain convinced that without significant regulatory change in radio operations in the bands below 512 MHz, the quality of communications in the private land mobile radio services will continue to deteriorate to the point of endangering public safety and the national economy.

We want to thank you for your interest. Your letter will be included in the record of the proceeding. We expect final rules to be issued in 1994.

Sincerely,

/s/

Joseph A. Levin
Chief, Policy & Planning Branch
Private Radio Bureau

Dear Mr. Smith:

Thank you so much for your letter. President Clinton greatly appreciates the trust and confidence you have expressed in him by writing.

To give your concerns the special attention they deserve, the

complement of radio frequencies in order to assure a safe flying environment.

I do not think it is wise of the FCC to seek to improve the operating conditions of the land mobile radio users at the expense of radio control modelers. The FCC may not think we are as important as business users of radios, but we have a considerable investment in our models and in our radio equipment. The hobby provides many hours of enjoyment to thousands of people like myself and contributes to the advancement and development of the commercial aviation industry.

Please help me to continue the safe enjoyment of my past time by not allowing the FCC to carry out its proposals for the 72-76 MHz band.

I urge you to call a local hobbie store and find out where you can watch how safe we are. They would be only to glade to teach you how to fly radio control airplanes, it may take weeks to learn, but you will see how safe it is and fun it can be unless the FCC has it their way.

Sincerely Yours

A handwritten signature in black ink, appearing to be "Jim" followed by a stylized name, possibly "Jim" or "Jim" with a flourish.
