3. Discuss and accept any new governmental appointment letters of representatives to this committee
4. Review, discuss, and potentially approve new and/or pending 700 MHz frequency coordination applications
5. Set next regular meeting time and date for this committee
6. Old Business
7. New Business
8. Opportunity for public comments
9. Adjourn

On Wednesday, December 6, 2017, immediately following the 700 MHz meeting, the Region 49 800 MHz Regional Planning Committee meeting will convene in the Texas Department of Transportation Cedar Park Campus at 9500 Lake Creek Parkway, Austin, TX 78717.

The agenda for this meeting includes:

1. Review and approve agenda
2. Review and approve the minutes of the October 25, 2017 meeting
3. Discuss and accept any new governmental appointment letters of representatives to this committee
4. Review, discuss, and potentially approve new and/or pending 800 MHz frequency coordination applications
5. Review, discuss, and potentially approve amendment to the Region 49 800 MHz Regional Plan to remove the two-year term limit for appointed "Regional Review Committee" members, and to replace the wording to indicate that an appointed

Review Committee member shall serve “until such time as the individual either resigns, or is replaced by another appointee” (essentially same language that currently applies to Region 49 700 MHz Regional Planning Committee member appointments)

6. Set next regular meeting time and date for this committee
7. Old Business
8. New Business
9. Opportunity for public comments
10. Adjourn

The Region 49 Public Safety Regional Planning Committee meetings are open to the public. All eligible public safety providers whose sole or principal purpose is to protect the safety of life, health, or property in Region 49 may utilize these frequencies. It is essential that public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal, and non-governmental organizations eligible under Section 90.523 of the Federal Communication’s Rules be represented in order to ensure that each agency’s future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency’s needs.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz and 800 MHz bands within Region 49 should plan to attend. For further information, please contact:
