

I support net neutrality. I support title
2 oversight of ISPs. I oppose the repeal of net neutrality.

Also it should be entered in to public records that Ajit Pai is a complete and utter douche. He has always been and will always be in the pocket of the telecoms and was legal council to Verizon. The conflict of interest with him as head of the FCC is unconscionable. America is ashamed of Ajit Pai. He is a terrible person.

In closing one of the main groups supporting Ajit Pai's idiotic idea is nazis. Nazis and Ajit Pai agree on the right thing to do. When you are supported by nazis you are always wrong. Ajit Pai supports nazi ideas and ideals, a fact that can not be denied.
