Re: Comments in Opposition to the merger of T-Mobile US, Inc. and Sprint Corp., WT Docket No. 18-197.

Ms. Dortch:

We are writing to you on behalf of OpenMedia, a community-based organization that works to keep the Internet open, affordable, and surveillance-free. We work toward informed and participatory digital policy by engaging hundreds of thousands of people in protecting our online rights.

On behalf of the OpenMedia community, we would like to comment on the merger application made by T-Mobile US and Sprint Corp. to express our opposition to this merger.

The latest economic analysis submitted by T-Mobile on November 6, 2018, fails to address the concerns of many OpenMedia community members throughout the United States – namely that it will decrease competition and increase prices in the U.S. cell phone market.

While T-Mobile's analysis places much emphasis on the way in which the merger will support improved network quality and generate investment for its 5G network, the analysis stays silent on the issue of consumer pricing, wholesale pricing for MVNOs, reduced choice, and the impact this could all have on the American public's connectivity.

With these concerns in mind, please find attached a letter signed by 12,039 OpenMedia community members, each speaking out in opposition to the merger. We would ask that you please consider each one of their signatures an individual submission to the public record.

Sincerely,

Rodrigo Samayoa  
Campaigner, OpenMedia  
[Rodrigo@OpenMedia.org](mailto:Rodrigo@OpenMedia.org)

Laura Tribe  
Executive Director, OpenMedia

**Letter signed by 12,039 OpenMedia community members, opposing the merger between  
T-Mobile US, Inc. and Sprint Corp:**

*Marlene Dortch  
Secretary  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554*

*Re: Comments in Opposition to the merger of T-Mobile US, Inc.  
and Sprint Corp., WT Docket No. 18-197.*

*Ms. Dortch:*

*We, the undersigned members of the OpenMedia community, would like to express our  
opposition to the merger between T-Mobile US and Sprint Corp.*

*This merger will result in less choice and higher prices for customers.*

*Approving the merger between T-Mobile and Sprint will reduce competition in the U.S. mobile  
market. T-Mobile is the biggest national provider of prepaid services, while Sprint is one of the  
largest providers of wholesale capacity for mobile virtual network operators (MVNOs).*

*Low-income customers are most likely to purchase prepaid services or services provided by  
MVNOs, and therefore will be disproportionately impacted by the lack of choice in the market  
that will result from this merger.*

*Competition between the four main national carriers and the desire of both T-Mobile and Sprint  
to independently gain market share has led to a 19% reduction in mobility prices since 2013.  
The merger in question threatens to wipe these gains for consumers.*

*We ask that you reject the T-Mobile and Sprint merger to foster competition and protect the  
interests of consumers.*

*Sincerely,*
