

In regards to **Proceeding 17-108: Restoring Internet Freedom**

I support Title 2 oversight of ISPs and oppose the repeal of net neutrality rules. A free and open internet without the ability for corporations or ISP providers to regulate access or content, to favor certain users and providers and limit access to content is not in the best interest of our country and its citizens. It is a step in the direction of censorship and control of information that should be free to all people. The internet must remain free and neutral to all users.
