/s/ Joe Chicoine

Title of Network Notification:

CCBFTR01601

Carrier Customer Bulletin

PUBLIC NOTICE OF COPPER RETIREMENT UNDER RULE 51.333

Date of Bulletin: November 27, 2018
Notice #: CCBFTR01601
Audience: Interconnection Customers in Palmetto (CLLI: PLMTFLXA) and Parrish (CLLI: PRSHFLXA)
Subject: Public Notice of Copper Retirement Under Rule 51.333
Date Effective: 90 Days After FCC Public Notice

Network Change:

Frontier Communications announces that it is retiring copper facilities in the following wire centers located in the state of Florida:

Wire Center	Address	CLLI
Palmetto	716 49 th St. E. Palmetto, FL 34221	PLMTFLXA
Parrish	12225 US 301, Parrish, FL 34219	PRSHFLXA

The specific serving locations are listed on Attachment A. Frontier has deployed a fiber network in these areas and is already providing and offering services over a fiber network infrastructure. There are 6 plain old telephone service (“POTS”) customers that currently use the copper facilities that are being retired. Frontier will continue to offer these customers the same POTS over fiber at the same price they received on copper facilities, with no change in the underlying features and functionalities in their service.

Description of Reasonably Foreseeable Impact of the Planned Changes:

For the locations reflected in Attachment A, Frontier will (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities.

Prior to Frontier’s purchase of these facilities, Verizon had installed fiber in the above referenced wire center locations. The 6 existing customers that use services over these copper facilities are reflected in Attachment A, and all affected locations are also served by fiber.

In accordance with FCC Rule 47 C.F.R. §51.333(a)(1), all telephone exchange service providers that are currently interconnected at these central office locations are being notified.

Description of any changes in prices, terms, or conditions that will accompany the planned change(s):

Frontier will continue to offer these customers the same POTS over fiber at the same price they received on copper facilities, with no change in the underlying features and functionalities in their service.
