RE: MB Docket No 05-311 In the Matter of Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992

We are writing in support of the Comments of the Cable Act Preservation Alliance (“CAPA”) in the Second Further Notice of Proposed Rule Making. We oppose the tentative conclusions the FCC reaches in the proceeding because of their impacts on our community.

Yolo County Library has worked with Davis Media Access on many occasions in the three years I’ve been with the library, and they’ve been able to help us many times. They have helped us to create an AV system in our meeting room that better allows us and other organizations to record proceedings in the meeting room. They have also been willing to work with the public and my staff on use of AV equipment and editing software, and they have given us good recommendations on purchases.

This community benefit was what was intended when Congress set up the Cable Act. PEG Access does not solely benefit a local government or franchising authority: It benefits and strengthens the community as a whole.

By allowing cable operators to reduce franchise fee support for local communities if they opt for local channels, the FNPRM diminishes the ability of PEG channels to serve communities such as ours. We ask that it not be adopted.

Thank you.

Yours sincerely,
Scott Love, Library Regional Manager
Yolo County Library
