We watch RFD TV all the time, I am 86 my husband is 92, so we don't get to go out to much, we get enjoyment by watching the shows on RFD TV. so please don't let them take the channel off the air, we have direct TV we would miss watching RFD TV.

So please do what you can do to keep it on the air.

Yours Truly

Dear Sirs. of FCC

I am writing to let
you folks know what
R.F.D. T.V. means to rural
American people of all ages.
R.F.D. T.V. is very important
to so many people - it
is a network we need.

Please keep it on -
I enjoy everything -

Thanks So Much!

Just A Note...

To whom it may concern,
this is in regards to
them wanting to take
R & D off of T.V. I am
soon to be 83 years old!

R & D is the main
station I watch on TV.
I also ~~FILE COPY~~ ^{FILE COPY} people
who watches it. This
station is the main reason
I keep my Direct TV.
so I can watch it!

They have such crazy
things on TV, that older
people don't care to watch

I ~~am~~ ^{FILED COPY ORIGINAL} ~~am~~ ^{am} a RFD-TV Network and I have been watching RFD-TV for 28 years. RFD-TV is my number 1 favorite channel because they have a lot of channels that none of the other stations have.

I like the Country music shows through the week and especially on Sat. nights. There are a lot of famous stars that sing the good old country songs.

They have a lot of educational shows on also. I like to watch

To The FCC

We have Nex-Tech TV

We are writing concerning
the "Rural Independent
Programming."

We watch RFD TV at
least 75% of the time ^(the rest is sports) when
we watch TV. You can always
depend on them to have decent
family and senior viewing.

The network programs are
all so full of crime, shooting,
sex, foul language, and
gay and lesbian programs.
None of this is found on
RFD TV. We need RFD TV
and weather programs desperately.

Att: FCC

To whom it may concern

Please Do Not

remove RFD TV from
T.V. A former teacher of
our youth, I know from
experience the RFD T.V station
has helped our youths in
so many ways it would fill
a Large book.

So My request is

Please Keep it
on our local
Stations through out

Dear Sirs FCC

I watch RFD from Ravenden ARK. Dish
We need these rural news, injection
that can't be found any where else.
We need these programs left on all
networks. Thanks for all your
help in this matter.

Dear Sirs: (CKET FILE COPY ORIGINAL)

Please do not take the
Channel R & D TV. off of the
Television.

I am a 90 yr old woman
who enjoys the Country Music
shows, also some other shows
on this channel.

I would be very disappointed
if I couldn't listen to my
Country music any more.

To whom it may concern.

I am 75 years old and one of my favorite stations is RFD TV.

There are very few shows I really enjoy. It would very sad if this station were no longer on. I can always find something good to watch on RFD.

Why would there be a reason to get rid of RFD?? There is no reason. There are very few programs that are family friendly. RFD is that station who is family friendly and tries to relate to all ages.

Please keep RFD on.

Dear Sirs

I certainly hope RFD-TV does
not go off the air. Better than the local
news, I watch RFD-TV the most. I like
and want to buy with such great programs
you have. I love Dick & I love, love,
love RFD.

it is still hard to imagine

To FCC.

We enjoy the music + cleanness of the programs. We farmed + ranched for 40 years + the programs are informative. The regular T.V programs are mostly sex + guns. This is what is being brought to our young people! Please leave the good programming on the air.

Dear FCC

Proceeding No. 16-4

TICKET FILE COPY ORIGINAL

I watch RFD-TV on DIRECTV. Some cable companies have dropped or blocked RFD-TV and other Independent channels. Programs on those channels are very important to all of us who live in Rural areas. I am a Senior citizen and at home most of the time. I get enjoyment and ~~entertainment~~ entertainment from programs on RFD-TV. Other programs on urban based channels don't offer much worth watching. They are empty, vulgar, violent programs - full of nonsense. You have the power and authority to keep those urban based companies from blocking Independent channels like RFD-TV, the weather channels, some sports, etc. I like the music programs, and since I don't get out dancing any more it's fun to watch those on RFD. That's Real dancing - not this modern stuff. I enjoy "Cowboy Church". Also the draft horses & they are so elegant and beautiful. The Farm and Ranch shows are informative and bring back memories from my childhood and how we grew up. All of us in Rural areas still provide the food for people in Urban areas - whether they know it or not.

-OVER-

To Whom it may concern:

My husband and I are
frequent watchers of RFD TV.

We appreciate the weather and
even though we aren't farmers.

Know that the farm info is most
needed by farmers.

It's become one of the few channels
that you can be sure of good, clean
entertainment. Please retain this channel.

Please let me say how important the RFD TV Channel is to me & my family. We watch it often various music programs as well as important ag news. We feel it is one of the better program options that we have in our network package.

We trust that it will remain available for viewing. Good moral, ~~eth~~ ethical values. I watch it often with my family. Please keep it going.

Dear FCC, # 16-41
we get RFD through Charter
Cable. My husband and I watch
RFD probably more than any
other T.V. shows. We are both
seniors. My husband loves
the farm and machinery, I
love the farm and the music
shows. Please try to do
something to keep rural
TV shows on. It gives
us such good information on
what is going on in farming
and rural life. It is great
viewing for families of all
ages.

Dear Fec 16-14

I am a 80yr. old widow + thank God
I have had Dish since 1999. If I didn't
have R.F.D to watch I always say I might
as well get rid of my TV. I was born + raised
a farm girl. I always hear my neighbors talking
about watching the markets + weather on R.F.D
I also record a lot of shows. I know it is all
about money. Those big shots ought to have to
live off one social security check for awhile
+ pay thier bills. So lets have some enjoyment.

Hang in there Patrick!

Sirs,

I am writing in behalf of Rural
Independant Programming. Our R.F.D.
station is being threatened to be
removed from T.V. that would be
devastating. I watch it alot. It means
alot to those of us in rural America.
So I plead that you would continue to
air R.F.D.

I watch RFD-TV on ~~live~~ TV.

RFD-TV is the only station that we can actually get all the farm & ranch news and all the interests that we as Rural People can get and use in our daily lives. Most City people would not want to live out here (30 miles from the nearest town) and enjoy what we do. We have no cell phone service out here as there are no towers that can get us past the hills around here. Many times our land lines are out so we are isolated. We use RFD-TV for a Buffer for the times when no one can call us - at least we can enjoy news about our kind of living & life style. Don't let these Big City People take our only means of enjoyment & entertainment from us.

Sincerely

Jim Beaman

To Whom it May Concern:

Please Consider Keeping RFD as a regular program. There are still some of us left who prefer this type programming. I do not relate to many of the options available on much of the choices we have to choose from. Once you get a little age on you sometimes you are not as busy as you once were and TV is a great way to spend your time if what is available appeals to you. Young audiences are not the only ones watching TV.

Thanks

James Cato
