

I support the current title 2 rules of Net Neutrality and I strongly discourage the FCC from going on with its current plan to abandon net neutrality in favor of corporate interests. To take away Net Neutrality is to take away free speech and to destroy democracy. The lives of every internet user will be fundamentally changed for the worse if Net Neutrality is abandon. It will only make people angrier with government and it will end up making everyone's lives worse, including your own. Whatever benefit you may gain from abandoning Net Neutrality will be offset by the anger of the American people and guilt of going against the will of your constituency. Please, find it within your heart to act on behalf of the people, not on the behalf of cooperations. Your life will be better if you do so, I promise. From the bottom of my heart, thank you.
