Dear Chairman Pai,

We write to support the Comments of Brattleboro Community Television, Inc. (File ID 1113560010350) and to disapprove of the proposals and tentative conclusions set forth in the FCC's September 25 Further Notice of Proposed Rule Making in *Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992*, MB Docket 05-311.

Our community has and continues to benefit from the service that BCTV provides to our residents. As a small rural community and a mountainous state, it is difficult to get television programming without paying for it. Even then, it does not include local, relevant information for our Town. BCTV and similar PEG Access Television and Community Media services enable diverse sections of our community to access what is happening in Town. From the elderly and ill, to young families with children, BCTV provides relevant up to date information on community events, topics, and government.

This local presence enables the residents of Guilford, VT to create and watch uniquely local programming about their community and local events and issues of interest to them. And that was the intent of the PEG provisions of the 1984 Cable Act – to enhance local voices, serve local community needs and interests and strengthen our local democracy. By defining “franchise fee” in an overly broad fashion to include “in-kind” support, the FCC's proposals will shift the fair balance between cable franchising authorities and cable operators – something that was never the intent of the Act – and could ultimately result in such reduction in franchise fees as to defund PEG Access in our state.

We appreciate your consideration and hope you will protect PEG Access in our community and others by choosing not to adopt many of the proposals in the Further Notice.

Sincerely,

Sheila Morse, Chair
Guilford Selectboard
