*RE: MB Docket No 05-311 In the Matter of Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992*

On behalf of the K-12 Education Television Authority (KETA), I am writing in support of the Comments of the Cable Act Preservation Alliance ("CAPA") in the Second Further Notice of Proposed Rule Making. We oppose the tentative conclusions the FCC reaches in the proceeding because of their impacts on our community.

Not only has KETA helped provide enriching and valuable educational programming to our community stakeholders through the public access channel, it has served as a means to bring public, charter, parochial, and private schools together to collaborate and partner for the common good.

Together, our local partnership encourages viewers in our city to watch cable television as was intended by the 1984 Cable Act – by enhancing local voices, serving local viewers and strengthening our local democracy. By defining "in-kind" support in an overly broad fashion, the rule making will shift the fair balance between local and state authorities and cable operators and will force communities to choose between franchise fees and PEG channels which was never the intent of the Act.

By allowing cable operators to reduce franchise fee support for local communities if they opt for local channels, the FNPRM diminishes the ability of PEG channels to serve communities such as ours. We respectfully ask that it not be adopted.  
Thank you.

Sincerely,

John Helmholdt, Chair  
K-12 Education Television Authority
