RE: Net Neutrality Vote Docket 17-108 **FILE COPY ORIGINAL**

Dear Commissioner Pai and FCC-

The majority of people in this country **oppose** FCC Chairman Pai's move to gut the rules that were put in place by the previous administration to protect the rights of consumers, small businesses students, hospital patients, low-income families, startups and entrepreneurs .

A free Internet is good for business, and one of very few growth areas of business and employment opportunities.

For small and medium businesses, the changes will call hardship at a time when we are just starting to come back from the recession.

This 'Carriers First, Consumers Last' approach puts broadband subscribers at the mercy of local cable companies whose 'innovations' have more to do with gouging consumers and crushing competition than with providing new services. I know Charter's already poor service is getting worse with buffering and dropping videos.

We pay more already for poor service. Comcast and Time-Warner are the worst.
FASTER SPEEDS FOR ALL!

Sincerely,
Thomas Mackey
