Dear Chairman Pai,

We write to support the Comments of the Cable Act Preservation Alliance (“CAPA,” File ID 1114050901562) and to disapprove of the proposals and tentative conclusions set forth in the FCC’s September 25 Further Notice of Proposed Rule Making in *Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992*, MB Docket 05-311.

Our community benefits from the service of local programming in a variety of ways which may seem immeasurable or ‘small’ yet have a dynamic impact on the health of our community. The county would lose a vibrant (and the impact is growing!) aspect of the knitting together of the community should this approval of proposals make headway.

This local presence enables the residents of our county watch uniquely local programming about their community and local events and issues of interest to them. And that was the intent of the PEG provisions of the 1984 Cable Act – to enhance local voices, serve local community needs and interests, and strengthen our local democracy. By defining “franchise fee” in an overly broad fashion to include “in-kind” support, the FCC’s proposals will shift the fair balance between cable franchising authorities and cable operators and will force communities to choose between franchise fees and PEG channels – something that was never the intent of the Act.

We appreciate your consideration and hope you will protect PEG Access in our community and others by choosing not to adopt many of the proposals in the Further Notice.

Sincerely,

Karen T Scheffler, owner
