

WC Docket Number 18-155

Regarding updating the intercarrier compensation
Regime including conference calling service

I enjoy the conference calls to hear about
Happings in other area

As a taxpayer, and a free conference calling client, I ask you to please consider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$ 80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, supports groups, board meetings, committee meetings, startups, schools, and global corporate communities meetings and their families.

Widows and other lonely individuals are finding comfort in this type of free free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rule making in WC Docket No. 18-155.

Dear Sirs,

My husband & I are both in our 70's. We don't have a radio or TV so depend on the conference line for news, and find the weekly singing very inspiring. When unable to attend church or other gatherings we greatly appreciate this service. If this service is taken, we, like many others won't be able to afford other set-ups and will greatly miss this service and miss out on alot of news.

Some of the surgeries I had so far include: Thyroid, Gall Bladder, Hysterectomy, Rectoyle & Cystocle surgery, Giant Cell tumor surgery, Appendicitomy and Hernia surgery.

We just hope and pray this conference line can continue, as many people benefit by it.

*Sincerely,
Mary B. Weiler*

My concern is that the Long Distance Carriers [L.D. C's] should adjust their base rate that they need not cry that they are losing money. And that the L.D. C's should not be so competitive that they each has the lowest base rate. The customers will be more than willing to pay a higher base rate. Thank-You
