FCC Mailroom

EX PARTE OR LATE FILED

Suicide Prevention... That's something I used the internet for when being bullied in High School. I was different, but I found other people who understood & accepted me online. They gave me the confidence to keep going and helped me learn how to survive this world, something my parents were too busy to teach me.

I'm asking you to keep the internet a free and open resource, and to keep doing right by the PEOPLE! When people are sick, they look up doctors online. When people are lost, they get directions online. When people are alone and feel helpless, they find comfort online.

DOCKET FILE COPY ORIGINAL

So please...

KEEP THE INTERNET CLASSIFIED UNDER TITLE II OF
THE COMMUNICATIONS ACT!

Thank you.
