RE: Puerto Rico's WAPA-Am/WISO-AM Radio  
Synchronous Boosters Permanent License

Attn: Mr. Tom Wheeler, Chairman  
Mr. Mignon Clyburn, Commissioner  
Ms. Jessica Rosenworcel, Commissioner  
Mr. Ajit Pai, Commissioner  
Mr. Michael O'Reilly, Commissioner

Dear President and Commissioners:

The Puerto Rican Radio Station of reference, WAPA Radio, is in the air for more than 25 years of uninterrupted and reliable broadcasting, serving all the U. S. citizens of this Island.

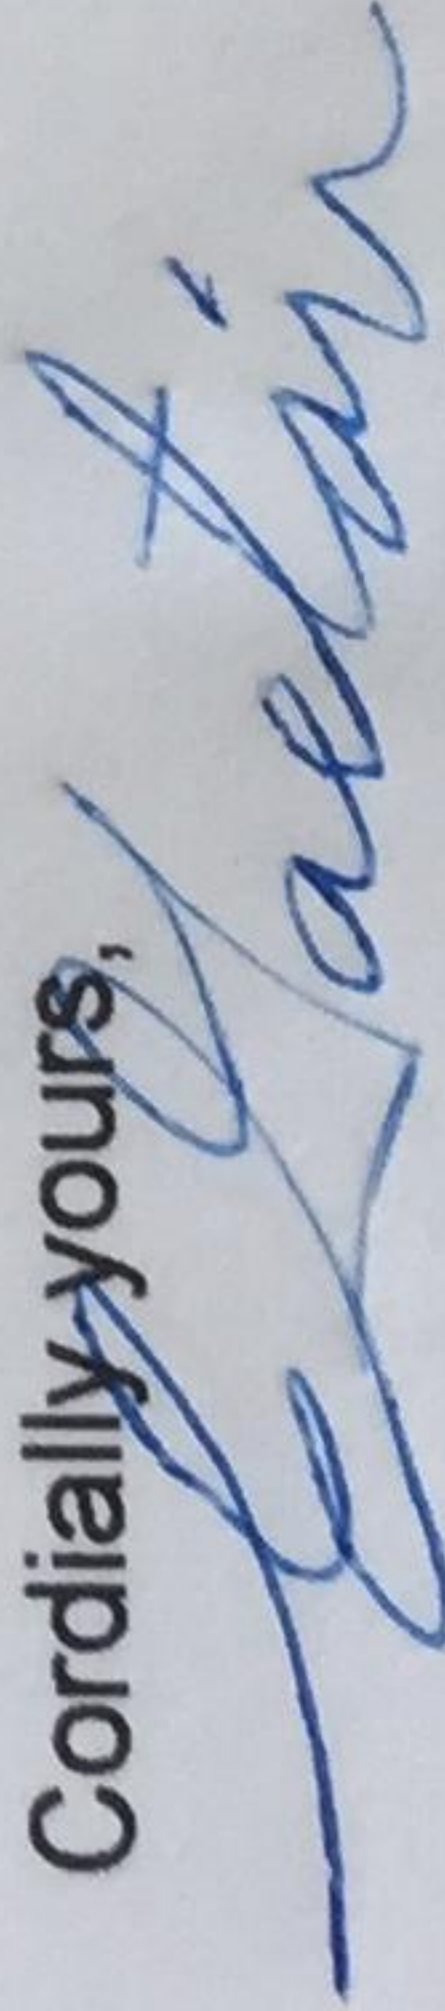

This radio station always maintains our population well and accurate informed, about all kind of issues that could affect the audience, mainly in economical, social, and political affairs.

It is of the utmost importance that WAPA Radio obtains his permanent license for using the boosters, because that will make possible to continues the broadcast reaching the whole Island, especially the western and southern areas of Puerto Rico.

If you decide otherwise, the broadcast of this friendly radio station will be negatively shortened, and our western and southern population will not have the benefit of being well and early informed.

Thanks a lot for your consideration to our petition to maintain the booster's permanent license for WAPA Radio station.

Cordially yours,

ELISEO GAETÁN y MEJÍAS  
Former Superior Court Judge
