Re: PR Docket No. 92-235

Dear Mr. Secretary:

I am the operator of a taxicab system and a licensee of your Commission.

I understand that some have suggested that the Taxicab Radio Service in which I am licensee should be consolidated with Business Radio users or in some broad pool consisting of a wide diversity of user groups.

I want to express my strong opposition to such an idea. First of all I see no need for consolidation at all; the existing coordination system works and "if it ain't broke, don't fix it."

Second, under no circumstances should Taxicab Radio users be consolidated with Business Radio users or in a broad pool.

Third, if there must be some consolidation, at least consolidate the Taxicab Radio Service with other compatible groups in a Land Transportation pool.

Five copies of this letter are included for the Commissioners and the docket file.

Sincerely,

*ANTHONY DANIELE (OWNER)*

Re: PR Docket No. 92-235

Dear Mr. Secretary:

We operate a taxicab system in Honolulu and are a licensee of your Commission.

We are strongly opposed to consolidating Taxicab Radio Service with any other radio users. We do not understand the reason for this change in a system that appears to be working and servicing the public well nationwide.

Please remember that taxicabs are a very important service to the community! Our many services include emergency deliveries for hospitals and other medical facilities, transportation for those who have no other means of transportation, delivery of medications and even food to shut ins etc. Doing anything that changes or adversely affects our ability to provide these essential services is a disservice to the public!

Thank you for your consideration. Enclosed please find five copies of this letter for the Commissioners and the docket file.

Sincerely,

Steven L. Kolt  
President
