RE: Ex parte presentation in
ET Docket No. 93-7

Dear Mr. Caton:

During the course of a meeting today with Commissioner James H. Quello, Daniel Ackerson, chief executive officer of General Instrument Corporation, indicated that the adoption of standards with respect to cable transmission, encryption, and terminal equipment should be approached with caution in light of the potentially negative effect that limiting standards could have on industry dynamism.

Sincerely,

Philip L. Verveer
