Re: Ex Parte Discussion - Docket 90-314

Mr. Caton:

Today, John Marinho, Joanne Wilson, George Zysman and I met with Thomas Stanley, Chief Engineer, Richard Engelman and Fred Thomas all of the Office of Engineering and Technology to discuss standards issues related to PCS. The principal point discussed was AT&T's continuing view that the FCC should direct the emerging PCS industry to select one common air interface, but should not dictate which interface the industry should select.

Two copies of Notice are being submitted to the Secretary of the FCC in accordance with Section 1.1206(a) of the Commission's Rules.

Sincerely,

A handwritten signature in cursive script that reads "David N. Porter".
