

Special operating conditions or restrictions:

1. The authorization of a license to operate this station is conditioned upon the use of a transmitter that has been type accepted or meets Commission type acceptance requirements at a visual carrier frequency tolerance of plus/minus 1 kHz. In the event the transmitter has not been type accepted at this tolerance, the permittee shall, in the license application, provide full engineering data that demonstrates compliance with Section 74.750 (c)(3)(iii) of the Commission's Rules.
2. Your construction permit application did not identify the name, address and telephone number of a person who may be contacted in an emergency to suspend operation of this station, should such action be deemed necessary by the Commission. You are directed to provide this information along with your license application on FCC Form 347.

Dear Sirs:

Raystay Co. is the licensee of 4 construction permits for LPTV stations in Lebanon, Pennsylvania, and Lancaster, Pennsylvania.

We are interested in the possibility of selling these C.P.'s. Please call me if you have any interest in them. My number is (717) 245-0040, extension 149.

Sincerely,

David A. Gardner

Dear David:

I am preparing the applications to extend the four low-power television construction permits. The last time we had the permits extended, we used the enclosed exhibit. Please let me know if any additional planning has been done that we can use to convince the Commission that Raystay has been diligent in working to get the stations on the air. If there are such facts, I will modify the exhibit. Otherwise, we will use the same exhibit.

I am preparing the applications and intend to send them out via Federal Express tomorrow. Please let me know as soon as possible if there are any additions we can make to the exhibit.

Regards,

John J. Schauble

Dear Ms. Searcy:

On behalf of Raystay Company, permittee of low power television station W23AW at Lancaster, Pennsylvania, we are submitting an original and one copy of an application for additional time to construct that station.

Pursuant to the Commission's July 11, 1991 Public Notice (FCC Fees, 69 RR 2d 787, 788), no filing fee is required for this application.

Should there be any questions concerning this matter, kindly communicate directly with this office.

Respectfully submitted,

Submit as Exhibit No. N/A a list of the file numbers of pending applications concerning this station, e.g., major or minor modifications, assignments, etc.

6. EXTENT OF CONSTRUCTION: (a) Has equipment been delivered? <input type="checkbox"/> YES <input type="checkbox"/> NO If NO, answer the following: <u>See Exhibit 1</u>	(b) Has installation commenced? <input type="checkbox"/> YES <input type="checkbox"/> NO <u>See Exhibit 1</u>
From Whom Ordered (If no order has been placed, so indicate) <u>See Exhibit 1</u>	If YES, submit as Exhibit No. _____ a description of the extent of installation and the date installation commenced.
Date Ordered	Date Delivery Promised
(c) Estimated date by which construction can be completed. <u>See Exhibit 1</u>	

7. (a) If application is for extension of construction permit, submit as Exhibit No. 1 reason(s) why construction has not been completed.

(b) If application is to replace an expired construction permit, submit as Exhibit No. N/A the reason for not submitting a timely extension application, together with the reason(s) why construction was not completed during the period specified in the construction permit or subsequent extension(s).

Are the representations contained in the application for construction permit still true and correct? YES NO
 If NO, give particulars in Exhibit No. _____

The APPLICANT hereby waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations and that all the exhibits are a material part hereof and are incorporated herein as set out in full in the application.

CERTIFICATION

I certify that the statements in this application are true and correct to the best of my knowledge and belief, and are made in good faith.

Legal Name of Applicant Raystay Company	Signature 
Title <u>President</u>	Date <u>July 7/1992</u>

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND IMPRISONMENT,
U.S. CODE, TITLE 18, SECTION 1001.

EXHIBIT 1

The permittee respectfully submits that a grant of the instant application would be in the public interest for the following reasons:

Initially, it must be noted that Raystay Co. has built and is currently the licensee of LPTV station W40AF licensed to Dillsburg, PA. Raystay built the station pursuant to a construction permit issued to it by the Commission.

At the present time, equipment for the station has not been ordered or delivered. Raystay, however, has had discussions with equipment suppliers concerning the types and prices of equipment that could be used at the site specified in the construction permit. It has entered into lease negotiations with representatives of the owners of the antenna site specified in the applications, although those negotiations have not been consummated. A representative of Raystay and an engineer have visited the antenna site and ascertained what site preparation work and modifications need to be done at the site.

Raystay has undertaken research in an effort to determine the programming that would be offered on the station. It has had discussions with program suppliers to determine what programs could be available for broadcast on the station. It has also had continuing negotiations with local cable television franchises to

ascertain what type of programming would enable the station to be carried on local cable systems.

The denial of this extension request could eliminate any possibility of the proposed LPTV service being offered to the community. No application mutually exclusive with Raystay's construction permit application was filed, so no other entity has expressed an interest in providing this service.

Accordingly, Raystay requests that the Commission extend the date for construction for a period of six months from the date this application is granted or from the date the current construction permit expires, whichever is later.
