PR Docket No. 93-61

To: Chief, Private Radio Bureau

MOTION FOR EXTENSION OF TIME FOR REPLY COMMENTS

PacTel Teletrac, by its attorneys and pursuant to Section 1.46(b) of the Commission's Rules, hereby respectfully requests an extension of time in which to file reply comments in the above-captioned proceeding. By Order dated February 25, 1994, the Commission extended the deadline for filing comments in response to its February 9, 1994, Public Notice in this proceeding to March 15, 1993. The current deadline for filing reply comments is March 22, 1994. PacTel Teletrac respectfully requests an additional one week in which to file reply comments, to Tuesday, March 29, 1994.

In support of its Motion, PacTel Teletrac states as follows:

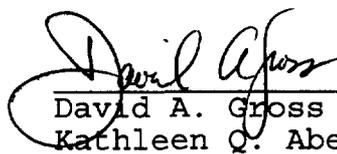

1. There was a tremendous response to the FCC's Public Notice. More than 20 comments were filed in response to PacTel Teletrac's band plan for 902-928 MHz and to the technical report prepared by Southwestern Bell Mobile Systems. Many of the comments contain complicated technical reports that will require close review.

2. An extension of time of one week will give all the commenting parties additional time in which to determine if some consensus might be reached in this proceeding. On Friday, March 11, 1994, the representatives of four parties met in Dallas, Texas, to discuss possible arrangements and it was agreed that future discussions would be beneficial. Moreover, the added time will facilitate a review of the comments so that replies might better clarify points of agreement and, hopefully, set the stage for further discussions.

For the foregoing reasons, PacTel Teletrac respectfully requests that the date for filing replies to the comments filed in response to the Public Notice be extended to Tuesday, March 29, 1994.

Respectfully submitted,

PACTEL TELETRAC
