Dear Brian,

This will confirm that Hughes Communications, Inc. is familiar with, and fully supports your proposal to the Federal Communications Commission to construct, launch, and operate a mobile satellite system operating in the 2 GHz band. Our ability to participate in any financing of the project is attested to by the attached financial statements of our parent company, GM Hughes Electronics.

Very truly yours,

Dear Brian:

It is our understanding that Personal Communications Satellite Corporation ("PCSAT"), a wholly-owned subsidiary of American Mobile Satellite Corporation ("AMSC"), will be filing an application with the Federal Communications Commission for authority to construct, launch and operate a Mobile Satellite Service ("MSS") satellite system into 2GHz bands to provide service to the United States. We have reviewed preliminary information you have prepared regarding the economics of this MSS project.

Donaldson, Lufkin & Jenrette is a leading international investment bank that provides a full range of financial advisory and capital markets services. We have extensive experience in raising capital for projects similar to PCSAT and, as you know, were the lead underwriter in the highly successful initial public offering of AMSC. We are very familiar with the issues connected with the financing of satellite companies and recently lead managed a \$440 million debt offering for PanAmSat Corporation.

While the precise terms of any specific financing would be subject to developments at the FCC and market conditions prevailing at the time, we believe it would be possible for AMSC and its shareholders to obtain the necessary financing on reasonable terms to construct, launch and operate PCSAT's proposed MSS satellite system. We are prepared to assist you in such efforts.

We understand that PCSAT intends to file this letter with the FCC.

Sincerely,

Handwritten signature of David L. Dennis

APPLICATION

Personal Communications Satellite Corporation ("PCSAT"), by its attorneys and pursuant to Sections 308 and 309 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 308 and 309, and Part 25 of the Commission's Rules, 47 C.F.R. Section 25, hereby requests authority to construct a domestic communications satellite in the arc between 98° and 104° W.L. for the provision of Mobile Satellite Service ("MSS"). This satellite is one of two that will comprise the PCSAT MSS satellite system, and will be referred to as PCSAT-2.¹ In support of this application, PCSAT provides the following information:

1. Name and Address of Applicant

Personal Communications Satellite Corporation
10802 Parkridge Boulevard
Reston, Virginia 22091
(703) 758-6000

¹ PCSAT is concurrently filling an application to construct PCSAT-1, an operational satellite, as well as a comprehensive proposal for its MSS satellite system, both of which are incorporated by reference herein.

2. **Contact Person**

Inquiries and correspondence concerning this Application should be directed to:

Lon C. Levin
Vice President
Personal Communications Satellite Corporation
10802 Parkridge Boulevard
Reston, Virginia 22091

3. **Type of Authorization Requested**

PCSAT requests authority to construct a domestic communications satellite in the orbital arc between 98° or 104° W.L. for the provision of MSS.

4. **General Description of Overall System Facilities, Operations and Services**

See Section I of the system proposal.

5. **Radio Frequency and Polarization Plan**

See Section II of the system proposal.

6. **Orbital Location**

PCSAT requests an orbital assignment of between 98° and 104° W.L. for PCSAT-2.

The specific reasons for this request are discussed in Section II of the system proposal.

7. **Predicted Space Station Coverage Contours for Each Antenna Beam and Nominal Orbital Location**

See Section II of the system proposal.

8. **Estimated Number and Geographic Distribution of Earth Stations**

See Section III of the system proposal.

9. **Description of the Types of Services to Be Provided**

See Section III of the system proposal for a description of the services to be provided and Section IV for the corresponding link budgets.

10. **Accuracy with Which Orbital Parameters Will Be Maintained**

See Section II of the system proposal.

11. **Calculation of PFD Within Each Coverage Area**

See Section II of the system proposal.

12. Launch Vehicles and Arrangements for Procuring Launch Services

Satellites of the Hughes 601 class may be launched by vehicles such as the General Dynamics Atlas IIA or the Arianespace Ariane IV.

13. Arrangements for Tracking, Telemetry and Control

PCSAT will contract for these services.

14. Physical Characteristics of Space Station

See Section II of the system proposal.

15. Description of Capabilities to Serve Alaska, Hawaii, Puerto Rico and the Virgin Islands

See Section II of the system proposal.

16. Schedule of Investment Costs, Operating Costs and Revenues

See Section IX of the system proposal.

17. Demonstration of Applicant's Financial Qualifications

See Section IX of the system proposal.

18. Legal Qualifications

An FCC Form 430 is attached to the system proposal as Attachment 1.

19. Regulatory Status

PCSAT will provide space segment service on a private carrier basis and service to end users as a commercial mobile radio service provider. For a more detailed explanation, see Section X of the system proposal.

20. Dates for Commencement and Completion of Construction, Launch and Placement Into Service

See Section VII of the system proposal.

21. Public Interest Statement In Support of Grant

See Section XII of the system proposal.

22. Waiver of Claim to Spectrum

Applicant waives claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests authority in accordance with this application.

23. Drug Certification

Applicant certifies that no party to this Application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 853(a) (1991).

24. Certification

The undersigned hereby certifies that the statements made in this Application are made in good faith and are true, complete and correct to the best of his knowledge and belief.

Wherefore, Personal Communications Satellite Corporation requests that the Commission grant this Application.

Respectfully submitted,

3. Type of Authorization Requested

PCSAT requests authority to construct a domestic communications satellite in the orbital arc between 98° or 104° W.L. for the provision of MSS.

4. General Description of Overall System Facilities, Operations and Services

See Section I of the system proposal.

5. Radio Frequency and Polarization Plan

See Section II of the system proposal.

6. **Orbital Location**

PCSAT requests an orbital assignment of between 98° and 104° W.L. for PCSAT-1.

The specific reasons for this request are discussed in Section II of the system proposal.

7. **Predicted Space Station Coverage Contours for Each Antenna Beam and Nominal Orbital Location**

See Section II of the system proposal.

8. **Estimated Number and Geographic Distribution of Earth Stations**

See Section III of the system proposal.

9. **Description of the Types of Services to Be Provided**

See Section III of the system proposal for a description of the services to be provided and Section IV for the corresponding link budgets.

10. **Accuracy with Which Orbital Parameters Will Be Maintained**

See Section II of the system proposal.

11. **Calculation of PFD Within Each Coverage Area**

See Section II of the system proposal.

12. Launch Vehicles and Arrangements for Procuring Launch Services

Satellites of the Hughes 601 class may be launched by vehicles such as the General Dynamics Atlas IIA or the Arianespace Ariane IV.

13. Arrangements for Tracking, Telemetry and Control

PCSAT will contract for these services.

14. Physical Characteristics of Space Station

See Section II of the system proposal.

15. Description of Capabilities to Serve Alaska, Hawaii, Puerto Rico and the Virgin Islands

See Section II of the system proposal.

16. Schedule of Investment Costs, Operating Costs and Revenues

See Section IX of the system proposal.

17. Demonstration of Applicant's Financial Qualifications

See Section IX of the system proposal.

18. Legal Qualifications

An FCC Form 430 is attached to the system proposal as Attachment 1.

19. Regulatory Status

PCSAT will provide space segment service on a private carrier basis and service to end users as a commercial mobile radio service provider. For a more detailed explanation, see Section X of the system proposal.

20. Dates for Commencement and Completion of Construction, Launch and Placement Into Service

See Section VII of the system proposal.

21. Public Interest Statement In Support of Grant

See Section XII of the system proposal.

22. Waiver of Claim to Spectrum

Applicant waives claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests authority in accordance with this application.

23. Drug Certification

Applicant certifies that no party to this Application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 853(a) (1991).

24. Certification

The undersigned hereby certifies that the statements made in this Application are made in good faith and are true, complete and correct to the best of his knowledge and belief.

Wherefore, Personal Communications Satellite Corporation requests that the Commission grant this Application.

Respectfully submitted,

**PERSONAL COMMUNICATIONS
SATELLITE CORPORATION**
