APPENDIX B

Initial Regulatory Flexibility Act Analysis

As required by Section 603 of the Regulatory Flexibility Act, the Commission has prepared an Initial Regulatory Flexibility Analysis (IRFA) of the expected impact of these proposed policies and rules on small entities. Written public comments are requested on the IRFA.

Reason for Action

This rule making proceeding was initiated to secure comment on various proposals for the implementation of Sections 3(n) and 332 of the Communications Act, 47 U.S.C. §§ 153(n), 332, as amended by Title VI of the Omnibus Budget Reconciliation Act (Budget Act). The proposals advanced herein are designed to carry out Congress's intent to establish regulatory symmetry in the regulation of mobile radio services.

Objectives

In the Budget Act, Congress directed the Commission to implement Sections 3(n) and 332, as amended. In accordance with this directive, the Commission seeks to address the impact of the statute on technical, operational, and licensing rules for all Commercial Mobile Radio Services (CMRS) including those formerly private services that have been reclassified as CMRS under the terms of the new legislation. The revisions to the regulatory scheme proposed in this *Further Notice* are intended to ensure equitable treatment of comparable mobile services providers, which will in turn promote regulatory certainty and allow for the enhanced provision of service to the public.

Legal Basis

The proposed action is authorized under the Omnibus Budget Reconciliation Act of 1993, Pub. L. No. 103-66, Title VI, § 6002(b), and Sections 3(n), 4(i), 303(r), 332(c), and 332(d) of the Communications Act of 1934, 47 U.S.C. §§ 153(n), 154(i) and 303(r), 332(c), and 332(d), as amended.

Reporting, Recordkeeping and Other Compliance Requirements

The proposals under consideration in this *Further Notice* may impose certain new reporting and recordkeeping requirements on mobile services licensees whose regulatory status has changed from private to commercial as a result of the new legislation.

Federal Rules Which Overlap, Duplicate or Conflict with These Rules

None.

Description, Potential Impact, and Number of Small Entities Involved

Many small entities could be affected by the proposals contained in the *Further Notice*. Depending on the final resolution of the issues, regulations affecting the licensing, technical configuration, and operations of numerous mobile services providers may be changed. The full extent of these changes cannot be predicted until various other issues raised in the proceeding have been resolved. After evaluating the comments filed in response to the *Further Notice*, the Commission will examine further the impact of all rule changes on small entities and set forth its findings in the Final Regulatory Flexibility Analysis.

Significant Alternatives Minimizing the Impact on Small Entities Consistent with the Stated Objectives

The *Further Notice* solicits comment on a variety of alternatives. Any additional significant alternatives presented in the comments will also be considered.

IRFA Comments

We request written public comment on the foregoing Initial Regulatory Flexibility Analysis. Comments must have a separate and distinct heading designating them as responses to the IRFA and must be filed by the deadlines provided in paragraph 154 of this *Further Notice*.
