FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF SECRETARY

Re: Ex Parte Communications
PR Docket No. 93-61
Automatic Vehicle Monitoring

Dear Mr. Caton:

On behalf of Pinpoint Communications, Inc., an original and one copy of this letter are submitted to provide notice of an *ex parte* presentation in the above-referenced rulemaking.

Today, Mimi W. Dawson, Senior Public Policy Consultant for Wiley, Rein & Fielding, and I met with Ruth Milkman, Senior Legal Advisor to Chairman Hundt. We noted that the resolution of this proceeding should include an objective definition of interference to AVM systems from Part 15 devices and a procedure whereby Part 15 interests could avoid arbitrary actions that would adversely affect their operation in the 902 - 928 MHz band. We also noted that Pinpoint had informed the Part 15 Coalition of its willingness to make the Pinpoint experimental system in Washington available for testing with Part 15 devices and that Pinpoint had also offered to Metricom an opportunity to test its technology with the Pinpoint experimental system. With respect to use of this band for voice operations, we reiterated that Pinpoint has not favored voice in this band. Finally, we expressed Pinpoint's view that the proceeding should conclude with a report and order based on the record, but that if there were to be a further notice of proposed rulemaking, it should be used to narrow the issues.
