EXHIBIT #10

Radiofrequency Radiation Study and Statement

This radiofrequency radiation study is being conducted to determine whether this proposal is in compliance with OST Bulletin Number 65, dated October 1985, regarding human exposure to radiofrequency radiation in the vicinity of broadcast towers. This study considers all contributing stations and utilizes the appropriate formulas contained in the OST Bulletin.

The proposed new noncommercial station's two bay antenna system will be mounted with its center of radiation 56.38 meters (185.0 feet) above the ground at the proposed tower location and operate with an effective radiated power of 2.0 kilowatts in the vertical plane. At two meters, the height of an average person, above the ground at the base of the proposed tower, the proposed antenna system will contribute, worst case, 0.0226 mw or 2.3% of the allowable ANSI limit. Since this level is below the 100% limit defined in the aforementioned bulletin, the proposed new noncommercial antenna is believed to be in compliance with OST Bulletin Number 65 as is required by the Federal Communications Commission.

Further, the Community Educational Association ("CEA") will post warning signs in the vicinity of the tower warning of potential radiofrequency radiation hazards at the site. In addition, CEA will reduce the power of the proposed facility or cease operation, as necessary, to protect persons having access to the site, tower or antenna from radiofrequency radiation in excess of FCC guidelines.

AFFIDAVIT AND QUALIFICATIONS OF CONSULTANT

State of Georgia)
St. Simons Island) ss:
County of Glynn)

JEFFERSON G. BROCK, being duly sworn, deposes and says that he is an officer of Graham Brock, Inc. Graham Brock has been engaged by Community Educational Radio to prepare the attached Technical Exhibit.

His qualifications are a matter of record before the Federal Communications Commission. He has been active in Broadcast Engineering since 1979.

The attached report was either prepared by him or under his direction and all material and exhibits attached hereto are believed to be true and correct.
