RE: PR Docket 93-61, Automatic Vehicle Monitoring Systems

Dear Mr. Caton:

On behalf of AirTouch Teletrac, we submit the attached material. Please associate this material with the above-referenced proceeding.

Two copies of this notice were submitted to the Secretary of the FCC in accordance with Section 1.1206(a)(1) of the Commission's Rules.

Please stamp and return the provided copy to confirm your receipt. Please contact me at 202-293-4960 should you have any questions or require additional information concerning this matter.

Sincerely,

Kathleen Q. Abernathy

Re: PR Docket 93-61, Written Ex Parte Presentation

Dear Ruth:

As you are aware, representatives of the Part 15 community and the multilateration AVM/LMS community participated in a technical meeting on Wednesday, October 12, 1994. Attached is the information AirTouch Teletrac distributed at the meeting.

I want to emphasize that Teletrac continues to urge the Commission to issue an order in the vehicle location proceeding as soon as possible. There is no need to delay the proceeding while these technical discussions are ongoing. The technical exchange that is currently taking place will, however, enhance the ability of all users of the band to coexist with a minimum of interference within the spectrum ultimately allocated for LMS. As Teletrac has pointed out in previous filings, we have been operating in six cities for up to four years and instances of interference have been negligible. Therefore, we have real world experience to share with the Part 15 community and other LMS companies -- experience that demonstrates the feasibility of Part 15 and LMS coexistence.

A follow-up meeting of the group is scheduled for Monday, October 24. In the meantime, if you have any questions, do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Abernathy", written in a cursive style.
