Broadcast Station (Stamping Ground, Ky.) )

DOCKET FILE COPY ORIGINAL

To: The Commission

PETITION FOR RULE MAKING

Scott County Broadcasting, Inc., licensee of WKYI, Channel 256A, Stamping Ground, Kentucky, request the Commission institute a rule making proceeding to make the following amendment to Section 73.202(b) of the Commission's Rules:

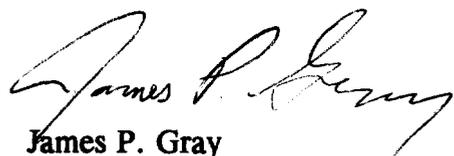

<u>LOCATION</u>	<u>PRESENT</u>	<u>DELETE</u>	<u>ADD</u>
Stamping Ground, Ky.	256A (WKYI)	256A	241A
Harrodsburg, Ky.	257A (WHBN)	257A	257C3

WKYI and WHBN are grandfathered Class A stations, limited to an ERP of 3.0 kilowatts at 100 meters HAAT. The rule change will allow WKYI to operate as a full 6.0 kilowatt class A facility and with less interference within its protected contour and will allow WHBN to increase power to 25 kilowatts as a Class C3 facility, which results in an increase in the area and population served for both stations. WKYI currently receives interference within its 1 mV/m protected contour from co-channel station WHKO, Dayton, Ohio, a Class B facility grandfathered at 325 meters HAAT with 50 kilowatts.

No. of Copies rec'd 024  
List A B C D E MMB

Should the requested change for WHBN at Harrodsburg not be practical, then Scott County Broadcasting, Inc. request channel 256A at Stamping Ground be changed to Channel 241A so that WKYI could operate as a full 6.0 kilowatt facility. Channel spacing studies for channel 241A (reference: 38 17' 43" 084 33' 10") at Stamping Ground and for channel 257C3 (reference: 37 41' 19" 084 58' 37") at Harrodsburg are in the engineering exhibit. Both proposals can provide 70 dBu signal to their respective communities from the reference coordinates.

Scott County Broadcasting, Inc. will apply for the increased facility for WKYI, if allotted; And if authorized, will build the facility promptly.

James P. Gray  
President, Scott County Broadcasting, Inc.
