RE: ET Docket No. 93-7, Ex Parte Presentation

Dear Mr. Caton:

On Friday, January 27, 1995, representatives of General Instrument Corporation (GIC) made an ex parte to Richard Smith and Allan Stillwell of the Office of Engineering and Technology regarding unresolved issues and new proposals in the above-referenced proceeding. GIC was represented by Quincy Rodgers, Thomas Dumit and Jeffrey Krauss.

The purpose of the meeting was to discuss digital technologies and IR passthrough (whereby IR codes intended for the cable decoder module are passed through the TV set transparently).

Sincerely,

Quincy Rodgers
