DOCKET FILE COPY ORIGINAL

Dear Secretary Caton:

The Riverdale Public Library District Board of Trustees is concerned about providing information to our citizens via the information superhighway. Our Board would endorse proposals which would allow the FCC to provide for the use of "consumer productivity dividends" to provide incentives for local telephone companies to connect schools and libraries to the Internet. Otherwise citizens of our lower income community will be further deprived of information needed to improve their educational outlooks.

Sincerely,

Adelle Swanson
Administrative Librarian
