In Re: **Ex Parte Presentation in PR Docket No. 92-235 (Replacement of Part 90 by Part 88 to Revise the Private Land Mobile Radio Services)**

Dear Mr. Caton:

On May 26, 1995, Leonard Kolsky and Stu Overby of Motorola, Inc. and Richard Wiley and myself had separate meetings with Rudy Baca of Commissioner Quello's office; Jill Luckett of Commissioner Chong's office; Dave Sidall of Commissioner Ness's office; and Greg Rosston of the Office of Plans and Policy to discuss issues related to the above captioned proceeding. In particular, we discussed the timing for the transition to new narrowband land mobile technology. This discussion was largely based on Motorola's comments previously filed in this proceeding.

Please call me at (202) 429-7249 should you have any questions on this matter.

Sincerely,

*R. Michael Senkowski*

R. Michael Senkowski  
Counsel to Motorola, Inc.
