Refer: C I DOCKET 95-54 & DOCKET 95-55

Dear FCC,

I ask that you consider our wishes;

- I support
1. Privatization of all FCC inspections of marine radio installations.
  2. The authorization for FCC licensed first class radio technicians to perform marine radio inspections, under the Great Lakes Agreement, the communications Act of 1934 & Solas 74.

- I oppose:
1. The limitation of private sector inspection authority to classification societies.
  2. Random or follow up inspections of the private sector inspections by the FCC.

Thank you for your considerations.

Sincerely,

Bill Harris  
Owner/Operator
