FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF SECRETARY

Dear FCC Commissioners,

I am a parent of two young children. It is my hope that my children will live in a world of free and open exchange of ideas. I think such free and open exchange is a prerequisite for peaceful coexistence in a world where the slightest miscommunication can escalate into monumental tensions.

The FCC has an opportunity, by allowing public access to a small portion of the media spectrum, to take the first step on the long road that leads to free and open exchange.

I urge you to give strong consideration to the Apple NII proposal. Allow the people whom you were appointed to serve the freedom to experiment with the powers of "free communication".

I thank you for your time, and trust you will make a wise decision.

Sincerely,

John D. Barth
