It is a good idea for the public schools to get a slice of spectrum.

Bill

DOCKET FILE COPY ORIGINAL

Dear FCC,

I am in favor of the FCC Petition RM-8653. The price I pay for cell-phone service indicates to me that the FCC does have my interest at heart when distributing the broadcast communications frequencies.

Dear FCC,

Please notice that I am in favor of the above refereced bill to allow free public access to 5.15-5.3 GHz and 5.725-5.875 GHz band.

Sincerely,

Robert F. Emerson

I am in favor of RM-8653, The public should be provided w/ a part of the broadcast spectrum for free. Like the waterways overseen by the government, I am able to use them without having to pay some business, and so should it be with the air"waves". Thank you for your time.
