Dear Mr. Secretary,

Speaking for myself as a person who is deaf. Closed captioning has enriched my life by allowing me to visually access information. When captioning is not provided, I am excluded (by reason of my disability) from that information.

I commend Congress in their support of the Telecommunication Act (FCC 95-484). Closed Captioning and Video Description of Video Programming is a benefit to everyone. I am asking that you consider having all programming captioned. It is frustrating when I am excluded from a program in which I have an interest. I do not feel someone else should determined what "class" of program I would be allowed to have access.

Thank you for considering my request and looking forward to having access to all the information that everyone else has.

Sincerely, *[Signature]*

ATTN: MM Docket #95-176

Dear Sirs

This is a note to tell you that
N.T.V. is the best programming, for I have
a bad eye, and the narrative really
helps for me to enjoy a movie. This is
mailed a little late, but you should
know I enjoy the N.T.V. television station.
