FEDERAL COMMUNICATIONS COMMISSION  
WASHINGTON, D. C. 20554

RECEIVED

MAY - / 1990

FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF SECRETARY

In the Matter of )  
)  
Southwestern Bell Telephone ) CC Docket Nos. 85-229,  
Company's Comparably Efficient ) 90-623 and 95-20  
Interconnection Plan for the Provision )  
of Facsimile Service )

DOCKET FILE COPY ORIGINAL

**MINOR AMENDMENT  
TO  
SOUTHWESTERN BELL TELEPHONE COMPANY'S  
COMPARABLY EFFICIENT INTERCONNECTION PLAN  
FOR FACSIMILE SERVICE**

Southwestern Bell Telephone Company (SWBT), by its attorneys,  
respectfully submits for Common Carrier Bureau (Bureau) approval this minor  
amendment to its Comparably Efficient Interconnection (CEI) Plan for its enhanced  
Facsimile Service,<sup>1</sup> filed pursuant to the Bureau's Memorandum Opinion and Order,<sup>2</sup>  
and still pending as of this date. As described herein, SWBT is committed to filing two  
additional basic service elements, Direct Inward Dialing (DID) and Simplified Message  
Desk Interface (SMDI)<sup>3</sup>, in the Federal Access Tariff as requested by the Bureau staff.

---

<sup>1</sup> See Southwestern Bell Telephone Company's CEI Plan for Facsimile Service  
filed August 3, 1995, (CC Docket Nos. 85-229, 90-623 and 95-20) hereinafter "Original  
Plan".

<sup>2</sup> In the Matter of Bell Operating Companies' Joint Petition for Waiver of  
Computer II Rules, Memorandum Opinion and Order, DA 95-36, released January 11,  
1995 (Order).

<sup>3</sup> SMDI is referred to as Subscriber Information Interface (SII) and Network  
Subscriber Information Interface (NSII) in the state tariffs.

No. of Copies rec'd 044  
List No. 001

In addition, this amendment reflects a minor change to include a new feature called Integrated Fax and Voice Mailbox, and to identify one additional basic service, Simultaneous Call Forwarding, which will be utilized by SWBT's Facsimile Service.

This amendment and SWBT's Original Plan fully demonstrate that SWBT will comply with each of the Commission's CEI requirements. SWBT understands that all services related to its CEI Plans are for intraLATA enhanced services only. Since the additional information supplied in this filing constitutes a minor amendment to the Original Plan, approval of this amendment in conjunction with the Original Plan is respectfully requested.

**I. Federal Access Tariff Elements**

Recognizing the Bureau's request that tariffs for DID trunks and SMDI links be filed in the Federal Access tariff, SWBT is currently testing how to provide and bill for the underlying technology of these basic services. SWBT commits to filing interstate access tariffs for DID and SMDI with the Commission by end of August 1996. The interstate filing date is based on several activities that must take place before a tariff can be filed. SWBT is in the process of performing lab testing and developing a technical service description. Testing will determine the underlying technology and if recording capabilities exists to provide a billable usage record. After this process is completed, illustrative tariffs and current cost studies will be developed. In addition, SWBT must file with the Bureau a description of these new Basic Service Elements

(BSE) for expedited approval within 45 days.<sup>4</sup> After receiving BSE approval, SWBT will file the tariffs with the Commission.

**II. Minor Amendment**

**A. New Feature Description**

The Integrated Fax and Voice Mailbox feature will be available to customers served by the originally planned service arrangements and is substantially identical to those available under the arrangement described in the Original Plan. This feature provides customers with integrated capabilities for storage and retrieval of voice and facsimile messages. Where this feature is available, callers will continue to dial the subscriber's assigned telephone number, which terminates on the platform via a standard DID trunk. At the time of the connection, the platform will determine whether the incoming call is a voice or facsimile call. If the incoming message is a facsimile call, receipt, review, and retrieval of the fax message will proceed as described in the Original Plan.<sup>5</sup> If the incoming message is a voice call, receipt, review, and retrieval of a voice mail message will proceed within the platform in the normal manner.

**B. New Basic Service for SWBT's Facsimile Service**

In addition to the basic services identified in the Original Plan<sup>6</sup>,

---

<sup>4</sup> In the Matter of Amendments of Part 69 of the Commission's Rules Relating to the Creation of Access Charge Subelements for Open Network Architecture, Report and Order & Order on Further Reconsideration & Supplemental Notice of Proposed Rulemaking, CC 89-79, para. 14, released July 11, 1991.

<sup>5</sup> Original Plan, at pp. 2 - 3.

<sup>6</sup> Original Plan, Exhibit A.

Simultaneous Call Forwarding will now be utilized by SWBT's Facsimile Service. This basic service provides the customer who also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls (up to the switch feature limitation) simultaneously to another telephone number designated by the customer. This service is already a part of SWBT's approved Open Network Architecture (ONA) Plan as a Complementary Network Service (CNS).

**C. Tariffs**

Tariffs on file for Simultaneous Call Forwarding are submitted as Exhibit A. The tariff references for this basic service in each state are as follows:

Arkansas      General Exchange Tariff, Section 2

Kansas        General Exchange Tariff, Section 6

Missouri      General Exchange Tariff, Section 47

Oklahoma     General Exchange Tariff, Call Management Services

Texas         General Exchange Tariff, Section 10

**D. CEI Parameters and Safeguards**

SWBT will continue to comply in all respects with the Commission's nine CEI parameters, and with the additional safeguards applicable to enhanced services, as explained in SWBT's Original Plan.<sup>7</sup>

---

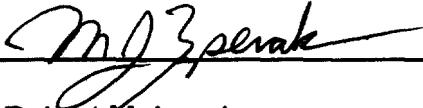

<sup>7</sup> Original Plan, at pp. 11 - 14.

**III. Conclusion**

Having complied with all Commission requirements, SWBT respectfully requests that this minor amendment to its Facsimile Service CEI Plan be approved in conjunction with SWBT's pending Original Plan.

Respectfully submitted,

SOUTHWESTERN BELL TELEPHONE COMPANY

GENERAL EXCHANGE TARIFF  
Section 2  
4th Revised Sheet 3

(CT) EasyOptions® Services

**2.2 SERVICE DESCRIPTIONS (Cont'd)**

**2.2.6 Remote Access to Call Forwarding**

Provides the customer that also subscribes to Call Forwarding (described in paragraph 2.2.3) with the ability to activate, deactivate or change Call Forwarding from a remote location. Remote Access to Call Forwarding can only be accessed from a Dual Tone Multi-Frequency (DTMF) telephone which has a full set of characters including "\*" and "#". All charges incurred to access the remote number will be billed appropriately.

**2.2.7 Selective Call Forwarding**

Provides the customer with the ability to forward incoming calls from preselected telephone numbers to another telephone number. The customer can construct or modify a telephone number screening list. The Telephone Company equipment will screen incoming calls against the customer's list and forward only those from telephone numbers on the list. The Selective Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Selective Call Forwarding equipped telephone line and the line to which the call is being forwarded. Calls from numbers not on the list will receive standard call completion.

**2.2.8 Simultaneous Call Forwarding**

(CT) Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The Simultaneous Call Forwarding customer must subscribe to sufficient facilities to adequately handle calls without impairing any services offered by the Telephone Company. The Simultaneous Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between the Simultaneous Call Forwarding equipped telephone and the line to which the call is being forwarded.

**2.2.9 Call Return**

Enables the customer to redial automatically the last incoming telephone number. If that telephone number is busy, the Telephone Company's equipment will keep trying to call the number for a maximum of thirty (30) minutes beginning with the customer's activation of Call Return in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

**2.2.10 Call Trace**

Enables the customer to initiate a trace of the last incoming call by dialing an activation code before receiving another call. If a trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The results of the trace will not be provided to the customer directly. For further action to be taken, the customer can contact the Telephone Company via the telephone number provided in the Call Trace Announcement.

Issued: June 30, 1995

Effective: July 31, 1995

By A. Dale Robertson, President-Arkansas  
Southwestern Bell Telephone Company  
Little Rock, Arkansas

No supplement to this tariff will be issued except for the purpose of cancelling this tariff.

EasyOptions<sup>®</sup> Services

2.3 APPLICATION OF RATES AND CHARGES (Cont'd)

2.3.10 Rates and Charges (Cont'd)

B. Business Service (Cont'd)

(1) The maximum Service and Equipment Charge per line is \$20.00, except when the Simultaneous Call Forwarding service is established.

(2) This rate is inclusive of the Cancel Call Waiting option where available.

(3) If Personalized Ring is ordered at the same time as another EasyOptions<sup>®</sup> service(s), the higher Service and Equipment Charge applies.

(4) Only one Service and Equipment Charge applies when more than one dependent DN is ordered or changed simultaneously.

(5) Applies in addition to the Service and Equipment Charge for other EasyOptions<sup>®</sup> services.

(6) When both Calling Number and Calling Name are selected as a part of BizSaver<sup>™</sup> B package, two additional services are required to qualify for a BizSaver<sup>™</sup> package discount.

(7) The rates and charges for the individual services apply as appropriate. In addition, the package monthly discount is applied as a credit to the customer's account. If the customer qualifies for more than one package, only one package will apply. If the package discount price differs then the larger package discount will be applied to the customer's bill.

(8) The Service and Equipment Charge of \$20.00 is waived for BizSaver<sup>™</sup> establishments.

(9) The Service and Equipment Charge applicable to upgrading from residence to business service is waived when the customer upgrades and orders BizSaver<sup>™</sup>.

(10) If Calling Number and Calling Name are purchased together, the customer receives the Caller ID credit of \$6.90.

(11) The Service and Equipment Charge will be waived for current Calling Number subscribers electing to subscribe to Calling Name in addition to Calling Number and whenever Caller ID service is ordered at the same time as other EasyOptions<sup>®</sup> features for 60 days following the date Calling Name becomes available in each central office.

(12) Customers who order qualifying EasyOptions<sup>®</sup> service(s) when establishing new service or moving existing service, will not incur a Service and Equipment charge on subsequent orders for additional qualifying EasyOptions<sup>®</sup> service(s) placed within 90 days. EasyOptions<sup>®</sup> services which do not qualify for the waiver are Call Forwarding-Busy Line, Call Forwarding-Don't Answer, Call Forwarding-Busy Line/Don't Answer, ComCall and Simultaneous Call Forwarding.

(AT) (13) The Service and Equipment Charge of \$20.00 is waived for THE WORKS.

## CALL MANAGEMENT SERVICES

### 6.2 SERVICE DESCRIPTIONS (Continued)

#### 6.2.7 Selective Call Forwarding

Provides the customer with the ability to forward incoming calls from preselected telephone numbers (quantity varies by technology) to another telephone number. The customer can construct or modify a telephone number screening list. The Telephone Company equipment will screen incoming calls against the customer's list and forward only those from telephone numbers on the list. Customers subscribing to Call Forwarding and Selective Call Forwarding may have only one feature activated at a time (depending on serving technology). The Selective Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Selective Call Forwarding equipped telephone line and the line to which the call is being forwarded. Calls from numbers not on the list will receive standard call completion.

#### 6.2.8 Simultaneous Call Forwarding

(CP)

Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The Simultaneous Call Forwarding customer must subscribe to sufficient facilities to adequately handle calls without impairing any services offered by the Telephone Company. The Simultaneous Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Simultaneous Call Forwarding equipped telephone line and the line to which the call is being forwarded.

(CP)

#### 6.2.9 Call Return

Enables the customer to redial automatically the last incoming telephone number. If that telephone number is busy, the Telephone Company's equipment will keep trying to call the number for a maximum of thirty (30) minutes beginning with the customer's activation of Call Return in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

## EASYOPTIONS<sup>SM</sup> SERVICES

### 47.2 SERVICE DESCRIPTIONS-(Continued)

#### 47.2.10 Selective Call Forwarding

Enables the customer to forward incoming calls from preselected telephone numbers to another telephone number. The customer can construct or modify a telephone number screening list by dialing an activation code. The Telephone Company equipment will screen incoming calls against the customer's list and forward only those telephone numbers on the list. Selective Call Forwarding customers are responsible for the payment of charges (e.g. toll charges) for each call between their line and the telephone numbers to which the call is being forwarded.

#### 47.2.11 Simultaneous Call Forwarding

(CT)  
|  
|  
|  
|  
|  
(CT)

Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The Simultaneous Call Forwarding customer must subscribe to sufficient facilities to adequately handle calls without impairing any services offered by the Telephone Company. The Simultaneous Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Simultaneous Call Forwarding equipped telephone and the line to which the call is being forwarded.

#### 47.2.12 Call Forwarding - Busy Line

Allows incoming calls that encounter a busy condition to be automatically forwarded to a predesignated telephone number within the exchange or the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

#### 47.2.13 Call Forwarding - Don't Answer

Allows incoming calls which are not answered after a predetermined number of rings to be automatically forwarded to a predesignated telephone number within the exchange or the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

EASYOPTIONS<sup>sm</sup> SERVICES

47.4 RATES AND CHARGES-(Continued)

- (1) The Maximum Service and Equipment Charge per line is \$7.75 and \$14.50 for residential and business, respectively, except when the Simultaneous Call Forwarding service is established.
- (2) This rate is inclusive of the Cancel Call Waiting option where available.
- (3) Speed Calling 8 (business) and Speed Calling 30 (residence) are available only to existing customers at existing locations.
- (4) If Personalized Ring is ordered at the same time as another EasyOptions service(s), the higher Service and Equipment Charge is applied.
- (5) Only one Service and Equipment Charge applies when more than one dependent DN is ordered or changed simultaneously.
- (6) Applies in addition to the Service and Equipment Charge for other EasyOptions services.
- (7) In addition, a Complex Installation/Move Charge of \$12.00 applies.
- (8) In addition, a Service Establishment Charge of \$2.00 applies.
- (9) The Service and Equipment Charge will be waived for customers ordering Calling Name Delivery (either singularly or in a package) for 60 days after Calling Name is deployed in the following central offices:

<u>Exchange</u>	<u>Calling Name Deployment</u>
Mexico	6-13-95
Montgomery City	6-13-95
Wellsville	6-13-95
Cardwell	7-25-95
Campbell	7-25-95
Caruthersville	7-25-95
Deering	7-25-95
Gideon	7-25-95
Hayti	7-25-95
Holcomb	7-25-95

St. Louis, Missouri

## CALL MANAGEMENT SERVICES

### 2. SERVICE DESCRIPTIONS (Continued)

#### 2.12 Simultaneous Call Forwarding

- (CT) Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The Simultaneous Call Forwarding customer must subscribe to sufficient facilities to adequately handle calls without impairing any services offered by the Telephone Company. The Simultaneous Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Simultaneous Call Forwarding equipped telephone line and the line to which the call is being forwarded.
- (CT)

#### 2.13 Speed Calling

Enables a customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. Eight code capacity and/or 30 code capacity may be provided on the same line, however, duplicate code capacities may not be provided. The combination of code capacities is not available on multiline number assignments equipped with hunting.

#### 2.14 Three Way Calling

Enables a customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation. The transmission may vary depending on the distance and routing necessary, therefore, transmission may not meet normal standards.

#### 2.15 Caller ID

Caller ID is the general category of the following services which assist customers in the management of incoming calls. Caller ID service is available with compatible single and multiple line residence and business service where appropriate technology and facilities are available.

##### Calling Number Delivery

Utilizes specific network capabilities to transmit the Calling Party Number (CPN) associated with an incoming call to the called party's access line. The CPN of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Caller ID subscribers must provide, and connect, their own compatible premises equipment in order to process the CPN transmission.

##### Calling Name Delivery

Enables the called party to identify the calling party by a displayed name before the call is answered. The displayed name is the name associated with the CPN. Calling Name Delivery subscribers must provide, and connect, their own compatible premises equipment in order to process the name transmission.

A customer may prevent the display of their name and number by activating per call blocking immediately prior to the call. Name and number blocking is available on a per call basis, at no charge. It is activated by dialing a specific access code. If a customer has activated name and number blocking, the name and number will not be transmitted to the display equipment of a Caller ID subscriber. Instead, the Caller ID subscriber will receive a privacy indicator. This privacy indicator notifies the Caller ID subscriber that the calling party chose to block name and number delivery.

### CALL MANAGEMENT SERVICES

#### 1.1 Custom Calling Services - General Regulations

1.1 Custom Calling Services are optional telephone service arrangements which provide one or more of the following features:

##### 1.1.1 Call Waiting

Alerts a customer who is using his telephone that another caller is trying to reach him. Where facilities permit, Call Waiting subscribers may cancel (deactivate) Call Waiting for the duration of one call by dialing a 3- or 4-character access code. Call Waiting is automatically reactivated for the next originating or terminating call.

##### 1.1.2 Call Forwarding {1} {2}

Permits the customer to forward incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network where facilities permit. The Call Forwarding customer is responsible for the payment of toll charges for each call between his Call Forwarding-equipped telephone and the telephone to which the call is being forwarded. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

##### 1.1.3 Selective Call Forwarding {1} {2} {3}

Permits the customer to forward incoming calls from previously specified telephone numbers to another telephone number within the exchange or on the Long Distance Telecommunications Network where facilities permit. The customer can create a list of telephone numbers by dialing an activation code. SWBT's equipment will screen incoming calls against the customer's list and forward only calls from those telephone numbers on the list. The customer is responsible for the payment of toll charges for each call between his Selective Call Forwarding-equipped telephone and the telephone to which the call is being forwarded. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

##### 1.1.4 Simultaneous Call Forwarding {2}

Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The Simultaneous Call Forwarding customer must subscribe to, or obtain, sufficient facilities to adequately handle calls without impairing any services offered by SWBT. The Simultaneous Call Forwarding customer is responsible for the payment of charges for each call between the Simultaneous Call Forwarding equipped telephone and the line to which the call is being forwarded.

(T)

(T)

- {1} A customer may subscribe to both Call Forwarding and Selective Call Forwarding features. However, both features may not be activated at the same time.
- {2} Features with call forwarding capabilities cannot be used on a continual basis to expand the local calling scope beyond that available to a customer's premises.
- {3} The maximum amount of telephone numbers available for each customer's list may vary depending on switch type.
