Dear Mr. Secretary:

Speaking for ourselves as persons who are deaf. Closed Captioned has enriched our lives by allowing us to visually access information. When captioned is not provided, we are excluded (by reason of our disability) from that information.

We commend Congress in their support of the Telecommunication Act (FCC 95-484.) Closed Captioning and Video description of Video Programming is a benefit to everyone. We are asking that you consider having all programming captioned. It is frustrating when we are excluded from a program in which we have an interest. We do not feel someone else should determine what "class" of program we would be allowed to have access.

Thank you for considering our request and looking forward to having access to all the information that everyone else has.

Sincerely,

Quilda Watson

Dear Mr. Secretary:

We would like for you to please make a strong law on all T.V. stations to provide closed captioning on all local television preview programs. We have learned a great deal of lesson that television preview program on the way and the local television preview programs were not providing closed captioning and we were not able to know what was going on. Many of us were lost and left out. We did not feel that the T.V. stations did not meet the FCC requirement, as it should be. Please follow this up and have this solved before the next television preview program season comes.

We want this to be better accessibility and more equal as well to save lives of many people who are not able to hear the news. Thank you and Hope you show your support to us, on this issue.

Sincerely,

*Eileen Tugg*

Dear Mr. Secretary,  
I am totally deaf & my husband is hard of hearing.  
Both of us depend so much on closed captioning. We are very much appreciative of the Congress for their support of the Telecommunications Act (FCC 95-484).

We know it costs so much to keep closed captioning going, but we really benefit from it. For example: What would the hearing people feel when they cannot hear a sound on the TV? We, the deaf, feel the same way.

I'd appreciate if you would consider my request. I am looking forward to having access to all the information that everyone else has.

Thank you

Sincerely,  
Lynne D. Landes
