Home Filtration, Inc. is a small woman-owned business and we ask that you please not sell out the small business people in this country.

We applied last year for a 1-888 vanity phone number. AT&T has tentatively approved our number and now we hear the FCC is considering a "SELL-OUT" of all 1-888 numbers to the highest bidder! This is discrimination. If this in fact happens you can be prepared for a class action discrimination suit.

As voting members of the National Federation of Independent Business we intend to do everything within our power to make sure that the FCC is not allowed to discriminate against small business in this manner.
